Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

NOTIFICATIONS.

GENERAL.

Notification No. G. 26297—P. P. 151-19-4, dated 21st May 1920.

The following Notification of the Government of India is republished for general information:—

HOME DEPARTMENT.

Simla, the 15th May 1920.

1. The following are the principal conditions of the Peace Terms which have been communicated by the Allies to Turkey:—

(1) The frontiers of Turkey will be as already demarcated and, where necessary, revised by a boundary Commission to be created. According to this delimitation, Turkey will include the Constantinople section of Thrace and all the predominantly Turkish areas of Asia Minor.

(2) The rights and title of the Turkish Government in Constantinople will not be affected, but the right to modify this provision is reserved in the event of the failure of Turkey faithfully to fulfil the Treaty.

(3) A Commission of the Straits will have authority over all waters between the Mediterranean Mouth of the Dardanelles and the Black Sea Mouth of the Bosphorus, and of the waters within three miles of each of these mouths, also on the shores to such extent as may be necessary. The duty of the Commission will be to ensure freedom of navigation in these waters in peace and war.

(4) A scheme of local self-government will be drafted for Kurdistan, including provision for the protection of Assyro-Chaldean and other minorities. The League of Nations will decide later whether Kurdistan should be granted independence of Turkey, if it be proved that separation is desired by the majority of the Kurdish people.

(5) Certain portions of Smyrna are formed into a separate unit to be administered by Greece, the suzerainty of Turkey being continued for a period of years till the autonomous State of Smyrna decides its own destiny.

(6) With the exception of the Constantinople sector, Eastern Thrace is ceded to Greece, provision being made for the local self-government of the town of Adrianople.

(7) Certain portions of the Armenian districts of Turkey are added to the existing Armenian Republic, the boundary between Turkey and Armenia in certain districts being referred to the arbitration of the President of the United States whose decision will be final thereon and on any stipulation regarding Armenian access to the sea.

(8) Syria, Mesopotamia, and Palestine are provisionally recognized as independent States, subject to administrative advice and assistance from a mandatory power, until such time as they are able to stand alone; the mandate for Syria has been entrusted to France and those for Mesopotamia and Palestine to Britain; the mandate for Palestine will include provision for giving effect to the declaration of November 8th, 1917, regarding the establishment of a national home for the Jewish people.

(9) The Hedjaz is recognized as a free and independent State. The King of Hedjaz undertakes to assume free and easy access to Mecca and Medina to Moslem pilgrims of all countries.

(10) Turkey relinquishes all rights and titles over Egypt, the Sudan and Cyprus.

(11) Turkey recognizes the French Protectorate over Morocco and Tunis.

(12) Turkey renounces her claims to certain islands in the Aegean.

(13) The military, naval and air forces at the disposal of Turkey will consist of the following:—

(a) The Sultan's Bodyguard at Constantinople;

(b) A troop of Gendarmerie for maintenance of internal order and security and protection of minorities;

(c) Special elements for reinforcements of the Gendarmerie and eventual control of the frontiers; the bodyguard is limited to 700 and the Gendarmerie with special elements to 50,000. All warships interned in Turkish ports are declared to be finally surrendered. The Turkish Fleet is limited to 6 torpedo boats and 7 sloops. No military, naval or air forces or dirigibles are to be maintained.

(14) Control will be maintained over the finances of Turkey until the discharge of her international obligations has been assured.

(15) Freedom of navigation and transit is secured. The following Ports are declared international ports, provision to be made for free Zones in each, Alexandretta, Basrah, Batoum, Constantinople, Dedagateh, Hara, Hailea, Pasha, Smyrna and Trebizond.

(16) In addition to the above, there are numerous provisions regarding:—

(a) League of Nations, (b) Protection of Minorities, (c) Restoration of abandoned property rights, (d) Prisoners of War, (e) Graves of Allied soldiers, (f) Punishment of war criminals, (g) Economic questions and concessions, (h) Labour conventions, and (i) Antiquities, but it is not necessary to detail these in the present statement.

2. However much they may regret some of these decisions, Indian Muslims must feel satisfaction in knowing that the settlement has been greatly influenced by their representations. When replying to the Khilafat deputation on the 29th January last, His Excellency the Viceroy gave an account of the steps which had been taken by the Secretary of State and himself from the date of the armistice onwards, to represent to His Majesty's Government the views of Indian Muslims, especially with regard to the holy places in the Hedjaz and the future of Constantinople, and to secure that their representations should receive a full hearing from the Supreme Council of the Allies. After that date the representatives of the All-India Khilafat Conference were given every facility and assistance by the Government of India to lay their case before the Prime Minister and the strength of Indian Muslim feeling in the matter has been impressed upon His Majesty's Government in frequent communications made to the Secretary of State. The Prime Minister replying to the Khilafat Deputation assured the Muhammadans of India that their case had been presented with great force and had been examined with conscientious care not merely by the delegates of the British Empire, but also by the Supreme Council of the Allies. And in fact the representations made by Indian Muhammadans did materially influence the final decision. It is well known that there was a great and strong body of public opinion both in England and America which favoured the removal of the Turkish capital from Constantinople to Asia Minor, and that such counsels did not prevail is in no small measure due to the knowledge how keenly Indian Moslem opinion was opposed to this step. Indian Moslems have therefore the satisfaction of knowing that largely out of deference to their feelings and the representations of the Government of India, Constantinople was saved for the Turkish Empire as its capital.

3. The Governor-General in Council would next like to advert to the allegation which is sometimes made that British policy has ever been in the past unfriendly to Turkey. For this statement there is no foundation. It is unnecessary to refer to the ancient friendship between the two countries, proved by the entry of Britain on the side of Turkey in the Crimean war and by all her subsequent efforts to preserve the integrity of the Ottoman Empire. The forbearance which Britain displayed and the provocation which Turkey under the domination of German influences and the leadership of the Committee of Union and Progress gave, before war was declared, were fully explained in the communique issued by the Government of India in October 1914. It was Turkey which broke the traditional friendship with Great Britain. In his reply to the Khilafat Deputation the Prime Minister made it absolutely clear that Britain had no understanding of any sort or kind with Russia to the detriment of Turkey when the war began. In fact Britain sought to deter Turkey from entering the war by giving her the most complete assurances that if she maintained neutrality, Britain would see that at the conclusion of peace no conditions would be laid down which would impair her independence and integrity, and that economic conditions of a character favourable to Turkey would be obtained. In spite of all these assurances Turkey took the fatal step of entering the war on the side of Germany, and against her ancient Ally.

4. It is most important that there should be no misunderstanding as to the attitude of Governments towards the question of the Khilafat. The Government of India repeat again that the question of the Khilafat is one for Muhammadans, and Muhammadans only, to decide, and that with their free choice in this matter, Government have no desire to interfere. But they cannot acquiesce in the statement which is now made that the Khilafat of the Ottoman Sultan has remained unchanged in its temporal attributes for thirteen centuries or that it implies any temporal allegiance on the part of Indian Muslims. These are proposi-

tions which are contrary to history. The temporal power associated with the Khilafat has undergone the most violent fluctuations during the last thirteen centuries. It has covered the whole of the dominions embraced in the Saracenic Empire when that was in the fullness of its glory. On the other hand it was reduced to nothing for over two centuries when the Khalifa was the mere spiritual Head of Islam under the Mameluk dynasty of Egypt. With the transference of the Khilafat to the Ottoman dynasty, the temporal power of the Khalifa has waxed and waned with the extent of the Ottoman Empire, but the essence of the Khilafat remained unaltered and cannot now be affected by any present change in the boundaries of that Empire. Nor, also, so far as Indian Moslems are concerned, is there any historical basis for the claim that the Khilafat implies any temporal allegiance on their part to the Sultan of Turkey. Any such theory of divided allegiance would be subversive of the constitutional basis on which all Governments rest.

5. It is also a mistake to suppose that the war was a religious one or that the terms of peace have been influenced in any way by religious considerations. The Muslims of India recognized this first proposition very clearly five years ago. The war was one between Christian powers and the alliance of Turkey with a Christian power places this beyond doubt. As to the second the Peace Conference has applied the same principles to all autocratic empires, Muslim and Christian alike. The Empire of Austria-Hungary has lost over two-thirds of its dominions and three-fourths of its population. Heavy as Turkey's losses are, they fall far short of these. And although it is true that Turkish Sovereignty has been confined to areas within which Turks predominate, Indian Muhammadans must remember that the independence of their Arab co-religionists remains intact throughout a very large proportion of the remainder of the former Ottoman Empire and that the only areas which have been removed entirely from Muslim control are the comparatively small areas of Armenia, Thrace and Smyrna, in each of which according to pre-war statistics the population was predominantly non-Muslim.

6. Again it has been said that the settlement is a breach of the promise or the offer made by the Prime Minister in his speech of January 1918 when he said: "Nor are we fighting to destroy Austria-Hungary or to deprive Turkey of its capital or of the rich and renowned lands of Asia Minor and Thrace which are predominantly Turkish in race." This passage must, however, be read with its context, for Mr. Lloyd George continued, "While we do not challenge the maintenance of the Turkish Empire in the home-lands of the Turkish race with its capital at Constantinople—the passage between the Mediterranean and the Black Sea being internationalized and neutralized—Arabia, Armenia, Mesopotamia, Syria and Palestine are, in our judgment, entitled to a recognition of their separate national conditions."

The peace terms now published fulfil this offer or promise, for her home-lands which are predominantly Turkish in race have been left to Turkey and those portions of Thrace and Smyrna which have been separated have been treated in accordance with the principle of nationality. This is a principle which has been followed in all the other Treaties of peace. The Supreme Council decided that the Turks had forfeited their title to rule over the majorities of other races and that these majorities should be joined to their own national states. Both in Thrace and in Smyrna the Muslim population before the war was in a minority. In 1914 and 1915 the Turkish Government carried out a systematic deportation of the non-Muslim population from these areas and the statistics of to-day cannot therefore be made a reason for retaining them under Turkish rule. In Thrace the sector of Constantinople, where Turks predominate, has been conserved to Turkey. The rest of Thrace was predominantly Greek in 1912 and has therefore been united with Greece. There is no doubt that Adrianople is predominantly Turkish, but it is only an island of Turks separated from the Constantinople sector by a region predominantly Greek. It is impossible to separate an island such as this from the territories by which they are surrounded, and therefore in accordance with the universal practice of the Peace Council in the rest of Europe it has been treated as part of Thrace subject to an arrangement which ensures a system of local self government and guarantees proper representation to the Turkish majority in Adrianople. Similarly in Smyrna the majority of the people are definitely Greek and Armenian but the area transferred has been cut down to the minimum suitable for separate administration. The suzerainty remains with Turkey and the districts concerned will eventually decide their own destiny by vote and the port of Smyrna will be free. Turkey will have feedom of transit and there will be a separate department for the Turkish minority.

7. It is unnecessary to refer at length to the reasons which have led the Allies to insist upon the internationalization and neutralization of the Straits between the Mediterranean and the Black Sea. Its opening to Germany and its closure against the British in 1914 had disastrous effects in prolonging the great war with all its bloodshed and misery. This great waterway of the world must remain in future open to the free commerce of all nations.

8. The maintenance of some control over the finances of Turkey to safeguard international obligations is no new proposal as for years such control has been exercised for the

administration of the Ottoman debt. This necessity has become all the greater now that the debt has increased from 160 millions to nearly five hundred millions, while Turkish territory has decreased. The new States formed out of Turkey and the ceded territories will bear a proportion of the pre-war debt. There are provisions granting to Turkey a consultative voice in the Financial Commission and for termination of the Commission when her obligations have been discharged.

9. The provisions regarding the army and navy of Turkey require little comment. The reduction of the Turkish army is in accordance with the arrangements which have been made for the general disarmament of the other powers lately at war with the Allies. Turkey had no effective navy before the war and this condition is maintained.

10. Of more interest to Muslims in India are those provisions which concern the portions of the former Turkish Empire where their Arab co-religionists preponderate. The absolute independence of Arabia is recognised. For generations the Arabs have suffered from the misrule of the Turks and it is unreasonable to ask that the Arab populations which have claimed independence of Turkey and have fought side by side with the Allies to secure their independence should be replaced by the Allies under Turkish rule. As the Prime Minister pointed out to the Khilafat Deputation, it would be unjust to deprive the Arabs of their independence merely because they are Muhammadans and co-religionists of the Turks. "We are applying" he said "exactly the same principles in Christian places, and to impose the dominion of the Sultan upon Arabia, which has no desire for it, is to impose upon Arabs something which we certainly would not dream of imposing, upon Christian communities."

11. Similar considerations apply to Kurdistan of which the right to local autonomy is provisionally recognized, and to those areas in Asia, over which mandates have been intrusted by the Peace Conference to Britain and France, that is to say, Palestine, Mesopotamia and Syria. It cannot be too clearly understood that in all these three cases the mandates have been granted for a specific purpose and for a temporary period. The immediate application to these areas of the principle of nationality would spell chaos and anarchy: and the work of the mandatory powers is to assist the local inhabitants with administrative advice and help, until such time as they are fit to take over with success the business of administration without outside assistance. Islam will not be weakened by these arrangements and the two great Powers to whom these mandates have been confided, include within the limits of their empires a very large proportion of the total Muslim population of the world—a guarantee that the interests and rights of the Muslims of these areas will be fully respected.

12. In the countries of Arabia, Irak and Palestine are situated the Holy Places of Islam with which all Muslims are profoundly concerned. When the war began the Allies gave a solemn pledge that the Holy Places would remain inviolate. This pledge has been observed in the spirit and in the letter during the actual occupation by His Majesty's forces of the territories in which some of the Holy Places are situated and steps have been taken to ensure their strict sanctity. The city of Jerusalem was not attacked as has been stated, but surrendered without violence offered or attempted, after it had been isolated in the course of operations against enemies armed in the field. The fullest measures were straightway taken to preserve the sanctity of the Holy Places within it, and the city which is in itself as sacred to Christians as to Muslims was entered by the victorious British General on foot. The Muslim shrines continues as before in the hands of their own Muslim custodians. In Mesopotamia the holy places of Kerbala and Najaf were never attacked and no acts of war were committed there by our troops. The scrupulous forbearance of His Majesty's soldiers was gratefully acknowledged by the inhabitants themselves. The unopposed occupation of Baghdad as of Jerusalem involved no attack on the Holy Places, but was an inevitable incident in the field operations of the war. The shrines in these three sacred places of Mesopotamia are now in the custody of a distinguished Muslim whose charge of them is an ample assurance that their sanctity will continue to be fully respected. The British forces have conducted no operations whatever in the Hedjaz and any reports that Mecca or Medina have been entered by British troops are utterly without foundation. These places are entirely under Arab control.

13. There remains the case of certain Armenian districts whose incoporation in the adjoining Armenian Republic is a direct consequence of Turkish misrule and of the application to this area of the principle of nationality. The cruelties perpetrated on the Armenians in the shape of massacre and deportation admit of no doubt. The story has been proved by independent and reliable witnesses and it is established beyond dispute that during the year 1915 at least 600,000 Armenians were destroyed. The facts were indeed admitted by the Turkish emissaries in Paris who represented the Turkish Government and their sole excuse was that the Committee of Union and Progress who were in power at the time were responsible for the massacres.

14. In these explanations of the Turkish Peace terms, the Governor-General in Council does not speak for His Majesty's Government. He has utilized such information as has come into his possession, and has attempted to explain the terms with special reference to their bearing on Indian Muslim sentiments. He has stated all the facts, nothing being mitigated and nothing overstated. He recognises that in spite of all explanations the terms of the peace settlement with Turkey are such as must cause pain to the Muhamadans of India. The Muslims must brace themselves to bear with patience and resignation the misfortunes of their Turkish co-religionists. The situation is one which calls for clear vision and a resolve to build a better future on the wreck of the past. Above all the world needs peace and goodwill. It is a matter of supreme necessity for all men to work towards this end and those who at this critical time arouse religious passions are enemies not only of India but of mankind.

Circular No. 424.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

FORESTS.

Simla the 27th April 1920.

FROM

J. H. HULLAH, ESQ., I.C.S.,

Offg. Secretary to the Government of India,

TO

ALL LOCAL GOVERNMENTS AND ADMINISTRATIONS.

SIR,

I am directed to inform you that with the approval of His Majesty's Secretary of State for India, it has been decided to offer about 15 probationerships for the Imperial Forest Service to be selected from candidates from India and about 3 to be selected from candidates from Burma.

2. I am to forward copies of the regulations and forms of application and am to draw attention to the necessity of the applications reaching Simla on the date prescribed namely* the 15th June. In order to complete the entries in Part II of the form of application it will be necessary for local Governments to arrange to interview candidates, but the Government of India are prepared to leave local Governments to decide the most suitable form of interview and to fix the date or dates for interview, which they will no doubt announce as soon as possible. The regulations should be published in the Gazettes, and made as public as possible. The Secretary of State has charged the Government of India with the maintenance of the past high standard of the service and I am to ask that this may be borne in mind in endorsing the applications.

* The local Governments other than Burma.
To Burma only 20th June.

3. The Government of India will select the candidates who are to be permitted to appear for the qualifying test and, later, at Dehra Dun, and will communicate their decisions, in each case, to the candidates direct at the same time informing the local Governments concerned of the names of the men so selected.

4. Madras / Bombay / Lahore / Allahabad / Calcutta — To Madras, Bombay, Punjab, United Provinces, Bengal only. has been selected as one of the centres at which the qualifying examinations referred to in paragraph 6 of the regulations, will be held on July 9th and 10th and I am to ask that arrangements may be made accordingly and that the Government of India may be informed of the place at which the candidates will be required to attend so that they may be advised when the orders requiring their attendance are issued. Intimation of the number of candidates for whom provision must be made will be given as soon as possible. The question papers will be forwarded by the President, Forest Research Institute and College, Dehra Dun, who will at the same time state to whom the candidates' papers are to be forwarded for valuation: it is obvious that they should be transmitted with the least possible delay as the time within which the papers must be valued and the candidates summoned for interview, etc., is limited by the fact that it will be necessary for the probationers selected to reach England by October 1st. Unless desired to do otherwise the President, Forest Research Institute and College, Dehra Dun, will despatch the question papers to you. I am particularly to request that the dates and hours fixed by the examiners for the various papers may be strictly adhered to.

(Burma only.)

4. Owing to the delay which will be unavoidable if examination papers have to be sent from Rangoon to India for valuation, I am to ask that the local Government will appoint examiners in Burma to set the papers for the qualifying examination in the subjects and within the limits prescribed in paragraph 6 of the regulations, for Burma candidates, and to value the candidates' answers. There should be three papers: one in English, one in Arithmetic and Algebra and one in Trigonometry and Logarithms. As in the case of Indian centres the examinations should be held

on July 9th and 10 and the marks made by each candidate should be communicated to the Government of India by telegram so as to reach Simla not later than July the 25th. The Government of India should be informed by telegram of the place at which the candidates will be required to undergo the qualifying examination so that they may be advised accordingly when the orders requiring their attendance are issued.

5. Passages to England for the selected probationers will be arranged by the Government of India. I am to ask, however, that the local Government will take steps to ensure that there is no delay in the issue of passports to the probationers, whose names will be communicated to the local Governments concerned directly selection is completed, and also that a passport be not issued to any probationer who has not provided, to the satisfaction of the local Government or Political Officer, the security (to the extent of Rs. 4,000), required by paragraph 12 (*b*) of the regulations.

I have the honour to be,

SIR,

Your most obedient servant,

J. H. HULLAH,

Offg. Secretary to the Government of India.

No. 425.

Applications are invited from natives* of India and Burma for about 15 probationerships for the Imperial Forest Service in India and about 3 in Burma. Delhi; the Chief Commissioner and Agent to the Governor-General, North-West Frontier Province; the Agent to the Governor-General; Baluchistan and Political Officers of Indian States.

These examinations will

* "Native of India" means any person born and domiciled within the dominions of His Majesty in India or within the territory of Indian Princes tributory to, or in alliance with, His Majesty, of parents habitually resident in India and not established there for temporary purposes only.

be held on July 9th and 10th at local centres, namely Rangoon, Calcutta, Allahabad, Lahore, Bombay and Madras. Candidates must state in their applications the centre at which they wish to appear if called up for examination. This choice once made may not be varied.

7. Candidates who have satisfactorily undergone the test referred to in paragraph 6 will be summoned by the Government of India to appear at Dehra Dun on or about August 15th, where they will first be required to undergo a physical test, which will consist of an excursion extending over about 15 to 16 miles and of such a nature as to test candidates' activity and power of endurance. Those completing this test satisfactorily will next be subjected to a strict medical examination, in which particular stress will be laid on good vision and hearing; when, if passed as fit for the work of the Forest Department, they will be interviewed by a Selection Board appointed by the Government of India.

8. Candidates will not be entitled to any travelling allowance for journeys to appear before local Governments, or Political Officers or Agents, or for journeys to and from the local centres referred to in paragraph 6; but those summoned to appear at Dehra Dun for the physical test, medical examination and interview will be reimbursed, by the President, Forest Research Institute and College, Dehra Dun before the candidates leave Dehra Dun to return to their homes, the cost of a second class ticket [by rail or (and) by sea] to and from Dehra Dun from the nearest railway stations or ports to their homes. Candidates must make their own arrangements for board and lodging at Dehra Dun, but the President, Forest Research Institute and College, will endeavour to assist those who communicate with him on this subject.

9. Those finally selected as a result of the examinations, tests and interview prescribed in paragraphs 6 and 7 will be appointed as probationers for the Indian Forest Service; they will be required to leave for England early in September and, subject to their undergoing satisfactorily, as described below, a course in Forestry and allied subjects in England, will be appointed finally as Assistant Conservators of Forests. Candidates selected for training will be provided with first class passages to England.

10. *Period of probation.*—Before appointment to the Imperial Forest Service a probationer will be required:—

(1) to have undergone and qualified in, to an extent to be prescribed by His Majesty's Secretary of State for India, the course of Forestry at such University as the Secretary of State may prescribe;

(2) to have undergone a special course of instruction in Forestry under the direction and supervision of the Director of Indian Forest Studies;

(3) to have passed an examination in forest engineering and, if required, in certain other special subjects, namely Systematic Botany of Indian trees, Indian Geology, Forest Law and Indian Working Plans;

(4) to have undergone a final competitive examination in Forestry;

(5) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

The period of probation is, in ordinary cases, two years. The Director of Indian Forest Studies instructs probationers in each case as to the order and manner in which they should fulfil these various requirements.

11. *Charges.*—Probationers will be required to defray all expenses of lodging, board, tuition and excursions to forest centres in the United Kingdom while at the University, and on practical instruction.

12. *Allowances.*—The Secretary of State for India in Council makes payment to each probationer at the rate of £ 200* per annum, not exceeding a total of £ 400. These payments are ordinarily made on the following dates in each year:—

	£
On 1st December ...	60
On 1st March ...	60
On 1st June ...	80

The cases of probationers whose probation does not extend over the full period of two years will be specially considered.

For tours made on the Continent under the instructions of the Director of Forest Studies, subsistence and travelling allowance will be paid by the Secretary of State for India in Council at such rates as he may from time to time fix. The fees of the local forest officials at the centres visited will also be paid by the Secretary of State.

* This allowance is unlikely to be sufficient to meet all the needs of a probationer, who should be in a position to provide himself with at least another £150 per annum from other sources.

D

The grant of allowances is subject to the following conditions :—

(a) that the progress of the probationer in his studies is satisfactory ;

(b) that the probationer gives security* to refund the payments in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 15 or failing to join the Indian Forest Service at the end of the period of probation.

13. *Conduct.*—Every probationer is required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he is liable to have his name removed from the list of probationers.

14. *Appointment and seniority.*—Probationers, who comply with the requirements of paragraph 10 within the sanctioned period of time, and also satisfy such other tests as may be prescribed, are appointed Assistant Conservators in the Indian Forest Department, provided they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. No probationer will be confirmed as a member of the Imperial Forest Service who fails to profit by the course of training, or who appears, in the light of the experience acquired as to his capacity and qualifications during the probationary period, to be unsuited for the work of a forest officer.

The position of the Assistant Conservators in the Provincial Forest Lists is determined by the Secretary of State for India in Council on the report of the Director of Indian Forest Studies. It is possible that officers promoted from the Provincial to the Imperial Service will take rank according to their pay in the latter service. In this case probationers recruited under these regulations must be prepared to find their names placed below those officers promoted from the Provincial Service.

Probationers are allowed at the end of the period of probation to state their preference in respect to the province to which they desire to be allotted ; but the distribution is made to the several provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council and no guarantee can be given that probationers will, on appointment, be posted to their own provinces. Indians will not, however, be required to serve in Burma and Burmans will not be required to serve in India.

Officers are at all times liable to be transferred from one province to another at the pleasure of the Government of India.

15. *Articles of Agreement.*—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment ; he must embark for India when required to do, so by the Secretary of State. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

16. *Passage to India.*—Each probationer on appointment to the Indian Forest Service is provided with a free first class passage to India.

17. *Salary.*—The scale of pay and allowances in force for officers of Indian domicile is given in Appendix II to these regulations.

18. *Promotion, Leave and Pension.*—Promotion, leave and pension are governed by the Regulations laid down by the Government of India, and applicable to Forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service will be found in Appendix II, and a summary of information regarding leave and pensions is contained in Appendix III.

APPENDICES.

1. With a view to the allocation of the annual Currie Scholarship for Indian Forest Students (value about lb. 35), and to facilitate the allotment of probationers to the several provinces in accordance with paragraph 14 of the Regulations as to appointments in the Indian Forest Service, probationers who have completed their prescribed course of training are required to undergo a competitive final examination in Forestry.

* Probationers will be required to give security to the local Government or Political Officer through whom they submitted their applications. If this condition is not satisfied they will not be permitted to leave for England.

A list of the probationers in order of merit is prepared by adding together (*a*) the marks obtained at the final examination, and (*b*) the marks obtained during the course of practical training in forestry under the control of the Director of Indian Forest Studies. OFFICIAL PAPERS.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Food Situation for the week ending 15th May 1920.

Brief abstract of the special reports regarding the Food Situation for the week ending 15th May 1920.

Bangalore City.—During the week under report 129 carts of ragi and 21 carts of paddy came into the bazaar as against 144 carts of ragi and 31 carts of paddy in the previous week.

The price of ragi ranged from Rs. 75 to 82 per cart during the week against Rs. 72 to 79 per cart in the previous week. Owing to absence of rains now ragi has not become as cheap as was expected.

There is sufficient stock of rice and ragi in the bazaar for consumers.

The Municipal Depot and the three Test depots are selling Rangoon rice to the poor. The importers are also selling rice to the public at their depots. The transactions in these depots are being watched by the Inspecting Staff.

Mysore City.—No change in the situation.

Bangalore District.—Except for 11 cents of rain in Channapatna and 5 cents in Closepet, there was no rainfall during this period. The raiyats were anxiously waiting for these Bharani rains to commence ploughing operations, but they (the rains) have practically failed.

The standing crops of *Vaishakhi* paddy and sugar-cane are in good condition.

Ragi is selling at 7 seers to 9½ seers per rupee while local rice sells at 3½ to 4 seers. Burma rice is being sold at 4½ to 4¾ seers per rupee. There is sufficient stock of Burma rice in the Government Depots.

Mysore District.—No change in the food situation. Prices continue to be high. There were a few showers in the western taluks.

Tumkur District.—There is no appreciable change in the prices of food grains. Stock of Burma rice is sufficient in the depots. *Vaishakhi* paddy is coming to the markets.

Local rice is being sold in the Maddagiri shandy at $4\frac{1}{2}$ to $4\frac{3}{4}$ seers a rupee. Till now there has been no good shower anywhere. It is difficult to make any forecast with respect to prices.

Kolar District.—There is nothing particular to report in the week. The *Vaishakhi* crop is being harvested. The demand for Burma rice is slack.

Hassan District.—*Santes* were fairly well supplied with food grains, but at the last Hole-Narsipur *sante*, the supply of rice was poor. Export of paddy and rice from the principal *santes* in the district to Tiptur and other places still continues.

Standing crops such as *kar* paddy and sugar-cane are in a good condition.

Prices of food grains still continue to be high.

Prospects of the season are generally good for the present. Rains are urgently wanted. Sowing is retarded for want of rain.

Shimoga District:—There has not been any material change in the food situation during the last week.

Rain is wanted for sowing purposes in the taluks of Shimoga, Channagiri, Honnali, Sorab and in the Kumsi Sub-Taluk.

Kadur District.—All the markets in the district were supplied with the necessary food stuffs in sufficient quantities. Rice was sold at Koppa at 5 seers a rupee as against $5\frac{1}{2}$ seers in the previous week. There was an increase also in the price of ragi at Kadur and it was sold at $9\frac{1}{2}$ seers a rupee as against 10 seers in the previous week. The prices of other food stuffs remained almost stationary.

The with-holding of Mungar rains has caused some anxiety among the people in Kadur and Tarikere Taluks.

Chitaldrug District.—There has been no change in the food situation during the week under report. Owing to marriage season, the price of local rice has gone up by one to two rupees a palla.

The week has had no rain.

General (by Food Controller).—It is reported that the standing crops are generally in good condition, but rain is wanted everywhere for ploughing and sowing operations. The markets are well supplied except in certain parts of the Hassan District, where the supply of rice is reported to have been poor. Prices show an upward tendency apparently owing to the failure of the *Bharani* rains.

The price of ragi in the Bangalore City has gone up to Rs. 80 and Rs. 82 per cartload. An increase in the price of rice is reported from the districts of Chitaldrug and Kadur. The latter reports also an increase in the price of ragi.

About one-third of the May allotment of Burma rice has left Rangoon on the 15th instant. The whole quantity is expected to be in Madras before the close of the month.

The supply of both local and imported rice in the Bangalore City market is quite ample and Burma rice continues to be issued from the Provincial Grain Depot to the extent of about 1,000 bags a week.

Legislative Measures and Rules thereunder.

NOTIFICATIONS.

No. 759—L. C., dated 25th May 1920.

Under Rule 31 of the Rules for the conduct of business of the Mysore Legislative Council, the accompanying Bill to amend the Negotiable Instruments Regulation, 1917, is published for general information with the statement of objects and reasons.

By Order,
P. MAHADEVAYYA,
Secretary, Mysore Legislative Council.

Bill to amend the Negotiable Instruments Regulation, 1917.

Whereas it is expedient to amend the Negotiable Instruments Regulation, 1917, His Highness the Maharaja is pleased to enact as follows:—

Amendment of Section 9.—1. In Section 9 of the Regulation for the words "payable to, or to the order of, a payee" the words "payable to order" shall be substituted.

Amendment of Section 13.—2. For Sub-Section 1 of Section 13 of the Regulation the following sub-section shall be substituted, namely;—

"(1) A 'negotiable instrument' means a promissory note, bill of exchange or cheque payable either to order or to bearer.

Explanation (i).—A promissory note, bill of exchange or cheque is payable to order which is expressed to be so payable or which is expressed to be payable to a particular person, and does not contain words prohibiting transfer or indicating an intention that it shall not be transferable.

Explanation (ii).—A promissory note, bill of exchange or cheque is payable to bearer which is expressed to be so payable or on which the only or last endorsement is an endorsement in blank.

Explanation (iii).—Where a promissory note, bill of exchange or cheque either originally or by endorsement, is expressed to be payable to the order of a specified person, and not to him or his order, it is nevertheless payable to him or his order at his option."

Amendment of Section 48.—3. In Section 48 of the Regulation for the words "payable to the order of a specified person, or to a specified person or order," the words, "payable to order" shall be substituted.

Amendment of Section 121.—4. In Section 121 of the Regulation, for the words "payable to, or to the order of a specified person," the words "payable to order" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The Negotiable Instruments, Act, 1881, of British India which has been introduced into Mysore by Regulation VII of 1917, has been amended by Act VIII of 1919 so as to bring the law into line with the existing commercial practice of the country. This amendment was introduced on account of the recent decision of the Bombay High Court in *Dosabhai* vs. *Virchand* reported in Bombay Law Reporter, Vol. XXI, No. 1, p. 1, in which it was held that "a cheque from which the word 'bearer' is struck out and there is no substitution of the word 'order,' is not negotiable within the meaning of the Negotiable Instruments Act, 1881, and that the custom of trade which exists in the Bombay Market whereby a cheque with the word 'bearer' struck out without the word 'order' is regarded as an 'order' cheque and negotiable, cannot legally be recognized."

This decision caused a good deal of confusion in Commercial and Banking Circles and led to the passing of Act VIII of 1919 in British India. The desirability of amending our Act on the lines of the British Indian enactment has been brought to the notice of the Government by the Chamber of Commerce, Mysore, and the proposed Bill is intended to secure that object.

A meeting of the Mysore Legislative Council will be held in the Public Offices Buildings, Bangalore, at 12 noon on Tuesday the 15th June 1920.

The price of ragi ranged from 7 seers to 9 seers a rupee. Rice (local) was sold at 3 to 4½ seers a rupee, while Burma rice was available at 4½ to 4¾ seers a rupee.

Burma rice is available in all Government Depots.

The situation on the whole, may be said to be stationary.

Mysore District.—No change. Good grain has been general all over the district and raiyats are engaged in agricultural operations.

Prospects are good.

Tumkur District.—In the week the price of rice in the market has slightly risen as also that of paddy from Rs. 70 to Rs. 75 a cart-load. There were two showers of rain in the week. The rainfall has been general throughout the district. There is sufficient stock of Burma rice in the Government depots.

Kolar District.—Local rice is being sold at 4 to 4½ seers a rupee and ragi at 7 to 7½ seers. The sale of Burma rice in the Government Depots is slack.

There have been some small showers throughout the district. Ploughing operations have commenced. More rain is wanted.

Hassan District.—*Santes* were generally well supplied with food grains. Export of rice and paddy from the Belur and the Alur *santes* to Tiptur and other places still continues.

Standing crops such as sugar-cane and *Kar* paddy are in a good condition. The latter crop is being reaped in parts of the Arsikere Taluk.

Prices of food grains are still high.

There were two or three showers of rain in parts of this district during the week and sowing operations are being pushed on.

Prospects of the season are generally good for the present. More rain is wanted.

Shimoga District.—There has not been any material change in the food situation of the district. There was some rain throughout the district during the past week and agricultural operations have been started in most of the taluks.

Kadur District.—All the markets were well supplied with necessary food stuffs. The prices as usual ruled high. There was no change in the price of food grains, except at Tarikere, where ragi was sold at Rs. 10-8-0 a palla as against Rs. 11 in the previous week.

There was some rain in the taluks of Chikmagalur, Kadur and Mudgere, and this has relieved the anxiety of the raiyats to some extent.

Chitaldrug District.—There was copious rainfall in the district during the week and a slight fall in the prices of ragi, jola and rice has been the result. Ploughing operations are going on briskly.

General (by Food Controller).—During this week rain has been general throughout the State and this has to some extent inspired hope in the hearts of the raiyats. Ploughing and sowing operations have been commenced.

The supply in the several markets have been adequate, but the prices rule high. A slight fall in the price of ragi is reported at Tarikere, while in Tumkur Town and Bangalore City there has been a rise in the price of ragi and of paddy. The prices of other food grains and of pulses show signs of going up.

The sale of Burma rice in the Bangalore City through Test Depots opened by the Municipality is being continued but the sale price has been raised from 5 seers a rupee to 4¾ seers a rupee with effect from 1st June 1920. The issue of Burma rice in small quantities for *bona fide* domestic consumption is being continued.

(b) All trees must be properly uprooted leaving no pieces of roots containing any quantity of heartwood in the ground.

(c) The trees should not be cut into billets, but when the tree is very long it may be sawn with a saw into two pieces or more according to the circumstances so as to be conveniently carried in a cart.

(d) All earth must be removed from the trees. After uprooting the tree, the bark and whitewood surrounding the heartwood should be carefully removed with the adze and hatchet as far as can be done without wasting any heartwood.

(e) In no case is the whitewood left on the tree to be more than one-fourth of an inch in thickness, but every care should be taken to remove as much of the whitewood as possible so as to economise the carting and koti preparation charges.

(f) The sandal so collected must be carted to the Sandal Koti then and there as far as is possible but when unavoidably delayed for want of carts or on account of heavy rains, etc., they should be made over to (1) the Patel of the village near which it is collected, and (2) if it is collected in a State Forest to the Forester or the Beat Guard in charge of the State Forest as the case may be.

(g) In case the sandal so collected is damaged by fire or stolen the loss sustained by the Government in that behalf has to be borne by the contractor himself.

(h) Every consignment of sandal sent to the koti must be covered by a pass-port issued by the Range Forest Officer.

(i) Dead sandal trees fallen or standing on assessed occupied lands should be felled only after they are marked by the Range Officer.

(j) The branches and top-pieces containing heartwood of the trees felled should also be roughly dressed as aforesaid and sent to koti pieces containing heartwood should under no circumstances be left uncollected.

(k) The successful tenderer should deposit in Government Savings Bank Rs. 200 towards the fulfilment of the terms of his contract. The contract should not be sublet.

9. The final acceptance of the tender rests with the District Forest Officer who reserves to himself the right to reject the lowest or any tender without assigning any reason therefor.

10. The cost of collection and rough preparation and carting charges will be paid by the Forest Ranger on the quantity of wood specified in the koti receipt granted by the officer in charge of the Sandal Koti.

11. In the event of the breach of any of the conditions specified in para 8 *supra*, the District Forest Officer is competent to impose a reasonable fine and deduct the same either out of the collection charges or the deposit amount and cancel his contract or to take necessary legal action for the recovery of the amount of loss to Government from the contractor.

No. G. 25838—Geol. 57-18-20, dated 12th May 1920.

Under Section 38 of the Mysore Land Revenue Regulation, IV of 1888, and in modification of Government Notification No. G. 3119—Geol. 40-16-2, dated 5th September 1916 and subsequent amendments, the Government of His Highness the Maharaja are pleased to prescribe the following revised and consolidated rules, for the grant of Exploring and Prospecting Licenses and Mining Leases in the State.

2. The revised rules will come into force from the date of this Notification.

APPENDIX I.

Rules for the grant of Exploring and Prospecting Licenses and Mining Leases in the State of Mysore.

Notification No. G. 25838—Geol. 57-18-20, dated 12th May 1920.

1. In these Rules—

"*The Government*" means the Government of His Highness the Maharaja of Mysore.

"*Person*" includes any persons, syndicate, partnership or company.

"British Subjects" includes subjects of the Native States of India.

2. Exploring, prospecting, or mining for minerals shall not be carried on within the State of Mysore except under licenses or leases granted under these rules or with the special sanction of the Government.

I. CERTIFICATES OF APPROVAL.

3. No license or lease under these rules will be granted to any person, nor will the transfer or assignment of any license or lease to any person be sanctioned unless such person holds a valid certificate of approval signed by the Director, Department of Geology, on behalf of Government.

4. Application for a certificate of approval shall be made to the Director, Department of Geology, in Form No. 1 hereto appended and shall be accompanied by a fee of Rs. 5 which shall not be returnable.

5. A certificate of approval will be valid only for the calendar year in which it is granted but may be renewed, at the discretion of Government, if forwarded to the Director, Department of Geology, before the close of the year for which it has been granted or renewed accompanied by an application for renewal and a fee of Re. 1.

6. No certificate of approval will be granted to any person who is not a British Subject or to any firm, company or syndicate which is not fully and satisfactorily controlled by British Subjects.

II. EXPLORING LICENSES.

7. Persons desirous of exploring for minerals within the State of Mysore may obtain an exploring license on application to the Director, Department of Geology, by whom any license granted shall be signed on behalf of the Government.

8. Each application shall be accompanied by a fee of Rs. 10.

9. The application shall state the district in which it is desired to explore and each license granted shall ordinarily be valid for one district only. Government may refuse to grant a license to any person, in which event the fee shall be returned, or may, at their discretion, limit the area to which the license shall apply or specially exclude any mineral from the license.

10. Such license shall not authorise the licensee to mine or quarry, but he may turn up the surface of the land, dig trenches and sink pits to such depth and subject to such conditions as the Deputy Commissioner may permit.

11. No private or occupied lands and no lands over which exclusive mineral rights have been granted or may at any time during the currency of this license be granted to others may be entered upon or explored without the consent of the owner, occupier or possessor thereof.

12. Every license shall be in Form No. 2 hereto appended and shall be valid for one year. Such license shall confer no exclusive or preferential rights, but in considering rival claims for a prospecting license or mining lease, due regard will be had to operations conducted under cover of an exploring license.

13. Under exceptional circumstances, the Government of Mysore may confer on a licensee special protection in regard to any specified mineral or minerals during the whole or any portion of the term of his license. Such special protection shall be designed to secure to a *bona fide* worker a fair and reasonable area over which he shall be entitled to obtain a prospecting license or a mining lease as provided for hereunder and shall be conferred only in cases in which, in the opinion of Government, it would be unreasonable or undesirable to insist on the area for a prospecting license or a mining lease being selected at once.

14. The licensee shall be at liberty, subject to such restrictions as the Government may from time to time impose, to remove specimens or samples of minerals in reasonable quantities for the purpose of testing, but not for sale.

III. PROSPECTING LICENSES.

15. Applications for licenses to prospect for minerals within the territories of Mysore shall be made to the Director, Department of Geology, in Form No. 3 hereto appended.

16. Each application shall be in respect of a specified block of land not exceeding four square miles in area, which shall be, as far as possible, in the shape of a rectangle of which the length must not under ordinary circumstances exceed twice the breadth.

17. The Government reserve to themselves the power of refusing to grant a prospecting license in respect of any block without assigning a reason or to impose such special terms as they may in their absolute discretion think desirable.

18. Every prospecting license granted under these rules will be in Form No. 4 appended hereto and will be valid for one year, but the Government may at their discretion sanction the renewal of any license from year to year on payment, in advance, of the annual rent in accordance with the scale laid down in Rule 22 and on payment of any enhanced deposit as provided for in Rule 22. Ordinarily three such renewals will be sanctioned if there is reason to believe that serious work is being done and that a valuable mineral deposit has not been sufficiently located. Whenever a fourth renewal is desired special reasons must be given.

19. Every application must be accompanied by—

(a) A sheet, extract or correct tracing of the Topographical Survey Map of Mysore (scale 1 inch to a mile) or of the village maps prepared by the Revenue Survey Department (scale 8 inches to a mile) upon which the boundaries of the block for which a license is required have been clearly marked.

(b) A schedule giving the names of the villages included (either wholly or partly) in the prospecting block together with the taluk and district in which they are situated and stating the area of the block in square miles.

(c) A schedule stating the mineral or minerals in respect of which the license is applied for.

(d) A fee of Rs. 25 for one square mile or portion thereof and Rs. 5 for each additional square mile or portion of a square mile.

20. On receipt of any application, the Director, Department of Geology, will, if the Government decide to grant a license, inform the applicant of the amount of the rent and the deposit due thereon and of any special terms which they may consider desirable to impose. Within such time as may be fixed in each case, the applicant shall pay the amount of the rent and deposit specified and such payment shall be held to involve the acceptance of any special terms of which the applicant has been informed.

The applicant may be required to point out the boundaries of the block applied for or to submit village maps upon which the boundaries of the block are shown.

21. The rent payable in respect of a license shall be not less than one anna and not more than one rupee per acre of the area granted. In the event of the renewal of a license, the rent payable will be one anna per acre over and above the rent paid for the current year, during which application for renewal is made. Provided that the total rent shall not exceed one rupee per acre of the area.

22. The deposit payable in respect of a license shall be at the rate of Rs. 100 per square mile or portion thereof of the area granted. This deposit shall be held as security for the due fulfilment of the provisions of these rules and of the terms of the license and, subject to any deductions in this respect, shall be returnable to the licensee after the termination of the license. In the event of a renewal of a license being applied for, Government may, at their discretion, demand a further deposit for each or any period of renewal.

23. The block of land over which the prospecting license is granted need not be surveyed and demarcated; but, in the event of any doubt or dispute arising as to the boundaries of the block or whenever in the opinion of the Director, Department of Geology, a survey is necessary or desirable, he shall order the survey and demarcation of the block to be made either with or without an application for the same from the licensee, and the licensee shall pay the expenses of the survey and demarcation. The boundaries of the block of land for which a prospecting license has been granted shall be marked on the map attached to the license which will show the approximate positions of village boundaries and survey numbers comprised within the block. The area of the block will agree as far as possible with that applied for by the applicant under Rule 16, but will be definitely determined by the survey numbers (wholly or partly) included within the area as shown on the map attached to the license. In the event of any doubt or dispute in regard to the boundaries and demarcation of the block, the decision of the Director, Department of Geology, shall be final.

24. Until the license is signed by the Director, Department of Geology, the applicant shall not be entitled to exercise any of the privileges of a licensee.

25. If the applicant neglects to comply with the preceding rules or fails to pay the rent and deposit within the time prescribed under Rule 20 or declines to accept a license which has been offered to him under Rule 20, his application shall be cancelled and the fee paid therewith forfeited to Government except as provided under Rule 27.

26. If the applicant withdraws his application before the orders of Government thereon are communicated to him, the fee paid therewith under Rule 19 shall be forfeited to Government.

27. If the license is refused under Rule 17 or if the applicant within such time as may be fixed under Rule 20 declines to accept any special terms of which he has been informed, his application shall be cancelled and the fee received therewith shall be returned to him.

28. The licensee will be entitled to select for mining purposes, any time during the currency of his license, a block of land, not exceeding one-eighth part of the area specified in the license (subject to the limits of shape and size prescribed in Schedule B) and to obtain a mining lease of the block so selected in respect of any mineral or minerals (with the exception of precious stones and alluvial minerals) specified in his license in accordance with and subject to the provisions of the rules contained herein. Provided that no person shall be entitled to obtain mining leases over a total area, within the State, of more than five square miles of which not more than two square miles shall be in respect of gold. The licensee shall not be entitled to obtain leases or to transfer or assign rights to others if the effect of doing so would lead to an infringement of this proviso. And provided also that the Government may altogether exclude from the mining lease any portion of the selected block which is, in the opinion of Government, required for any public purpose the fruition of which would be impaired by the development of mining operations. It is desirable for the licensee to ascertain before incurring any considerable expenditure on prospecting work whether any land, which he may require for mining purposes is subject to any restrictions or is freely available for such purposes.

In the case of precious stones and alluvial minerals, the holder of a prospecting license will be entitled to a mining lease upon the special terms, if any, provided in his license; and in the event of there being no such special provisions, to the first refusal of such mining lease as the Government may decide to grant.

As soon as a mining lease has been granted under this rule the prospecting license shall immediately cease and determine.

29. If the licensee discovers any mineral of value within the area specified in his license, he shall immediately report the discovery to the Director, Department of Geology. Failure to comply with this provision will render the license liable to be cancelled and the deposit forfeited. If the mineral so reported is not one of those in respect of which the license has been granted, the license may apply to the Director, Department of Geology, to have the said mineral added to those already specified in his license and it shall be within the discretion of Government to accede to or refuse the request or to impose such special terms as they may think fit. As a rule and under ordinary circumstances such requests will be complied with, provided that the rights sought to be secured in respect of the mineral applied for, are freely at the disposal of Government.

Provided that if any mineral of value is known to occur on or within the area of a prospecting license the Government may, at their discretion give the licensee the option of having such mineral added to those specified in the Schedule to his license or grant a prospecting license or mining lease in respect of such mineral to any person. As a rule and in the absence of specified reasons no prospecting or mining rights will be granted to more than one person on the same block.

30. A prospecting license shall not be assigned nor any right or interest thereunder transferred without the consent in writing of the Government. The application for such consent must be made by the licensee himself or by his legal representative and the license itself must be forwarded to the Director, Department of Geology, with the application together with a draft or document setting forth fully and clearly the terms of the proposed assignment or transfer. If Government decide to consent to the transfer, the Director, Department of Geology, shall inform the licensee to that effect and the licensee shall, within such period as may be specified by the Director, Department of Geology, have the document duly stamped and registered and shall forward a certified copy of the same to the Director, Department of Geology, who shall thereupon endorse upon the license the consent of Government to the transfer and return the license to the licensee. Until the license has been so endorsed no assignment or transfer of rights shall be valid.

Failure to comply with the provisions of this rule will render the license liable to be cancelled and the deposit forfeited.

31. If the licensee desires the renewal of a prospecting license, he shall apply for a renewal and shall forward the license together with the amount of the rent payable for one year to the Director, Department of Geology, not less than two months before the date on which the license terminates.

32. Within three months after the date on which a license has expired the licensee shall forward the license to the Director, Department of Geology, and shall, at the same time, apply for the refund of the deposit; failing which, the deposit will be liable to be forfeited.

IV. MINING LEASES.

33. Applications for mining leases within the territories of Mysore shall be made to the Director, Department of Geology, in Form No. 5 appended hereto.

34. Every application shall be in respect of a specified block of land the shape and dimensions of which shall conform, ordinarily, to the limits set forth in Schedule B hereto annexed. The boundaries of the mining block shall be considered to run vertically downward towards the centre of the earth.

In the case of precious stones or alluvial deposits the area to be granted under a mining lease will be determined in each case by the Government.

35. Every mining lease granted under these rules will be in Form No. 6 appended hereto and will be, in the case of gold, for a period not exceeding twenty years with a right to the renewal for a further period of twenty years and in the case of other minerals for a period not exceeding ten years in the first instance with a right to a renewal for a further period of ten years, the renewal in each case being under the rules that may be in force at the time of each renewal—

36. Every application must be accompanied by—

(a) A fee of Rs. 100.

(b) A sheet, extract or correct tracing of the Topographical Survey Map of Mysore (scale, 1 inch to a mile) upon which the boundaries of the block applied for have been clearly marked.

(c) A schedule giving the names of the villages to which the lands comprised within the block belong, with the taluk and district in which each is situated.

(d) A schedule specifying the mineral or minerals in respect of which the mining lease is applied for.

37. The Director, Department of Geology, will submit to the Government every application received unless the area required has already been disposed of or otherwise reserved in which case he will inform the applicant. In other cases, the Director will before submitting the application to Government ascertain from the Deputy Commissioner whether the area applied for is free or subject to any restrictions other than those provided for in the form of lease appended to these Rules. If the Government decide to grant a lease the Director will inform the applicant of their decision and of the special terms if any, which they may consider desirable to impose and the applicant shall within one month of receiving this information, deposit with the Director, Department of Geology, a sum of Rs. 1,000 as security for the due fulfilment of the provisions of these rules and of the terms of the lease. Subject to any deductions in these respects the deposit will be returnable to the lessee after the termination of the lease.

38. If Government decline to grant a lease or if the applicant declines to accept any special terms which may be imposed, the fee of Rs. 100 paid with the application will be returned.

39. If the applicant neglects to comply with the preceding rules or fails to pay the deposit within the time prescribed under Rule 37 or declines to accept a lease which has been offered to him under Rule 37, his application shall be cancelled and the fee paid therewith forfeited to Government except as provided under Rule 38.

40. If the applicant withdraws his application before the orders of Government thereon are communicated to him, the fee paid therewith under Rule 36 shall be forfeited to Government.

41. The applicant may be required to point out to an officer deputed for the purpose by the Director of Geology, the boundaries of the block of land applied for or to submit village maps upon which the boundaries of the block have been marked, within a fortnight of the date on which he may receive an intimation to that effect or within such longer period as may be fixed by the Director, Department of Geology, and the officer so deputed shall thereupon survey the block and erect or cause to be erected such boundary marks as may be requisite.

42. If in the opinion of the Director of Geology a survey and demarcation of the mining block, is necessary he may order the same to be carried out either before or after the issue of the lease and the lessee shall pay, within one month of receiving a bill therefor, the

expenses of the survey and demarcation. In the event of any doubt or dispute arising as to the boundaries of the block as shown on the map attached to the lease the decision of Government shall be final and shall be accepted by the lessee.

43. After completion of all necessary enquiries, surveys, etc., a form of the lease to be executed will be sent to the applicant, who shall, within a month of receiving such communication, tender for execution by the Dewan of Mysore the lease executed by himself and duly stamped, paying at the same time the cost of the survey and demarcation.

44. The applicant's title to the land applied for will not be complete until the lease has been actually executed by the Dewan.

45. The lease shall, after execution, be registered by both parties under the law for the time being in force for the registration of assurances, and shall, within one month of the date of registration, be forwarded by the lessee for information and record to the Director, Department of Geology, who will return it to the lessee after noting its contents.

46. If the lessee discovers any mineral of value within the area specified in his lease, he shall immediately report the discovery to the Director, Department of Geology. If the mineral so reported is not one of those in respect of which the lease has been granted, the lessee may apply to the Director, Department of Geology, to have the said mineral added to those already specified in his lease and it shall be within the discretion of Government to accede to or refuse the request or to impose such special terms as they may think fit. As a rule and under ordinary circumstances such requests will be complied with provided that the rights sought to be secured in respect of the mineral applied for are freely at the disposal of Government.

Provided that if any mineral of value is known to occur on or within the mining block, Government, at their discretion, may give the lessee the option of having such mineral added to those specified in the schedule to his lease or may grant a prospecting license or mining lease in respect of such mineral to any other person. As a rule, however, and in the absence of special reasons, prospecting or mining rights will not be granted to more than one person on the same block.

47. The lessee shall not assign his lease or transfer any right or interest thereunder to a person except with the previous consent of the Government in writing. No such assignment or transfer will, under ordinary circumstances, be sanctioned which would result in the possession by any person of mining leases under these rules over a total area of more than five square miles of which not more than two square miles shall be in respect of gold.

48. The lessee in applying to Government, for permission to transfer or assign the lease shall report to Government the name and financial position of the assignee and also submit for approval a draft of the proposed deed of assignment. When the Government has communicated its assent to the transfer and to the deed of assignment, the deed of assignment or document of transfer shall be duly stamped and registered in accordance with the laws in force in the State of Mysore at the time and a certified copy thereof deposited with the Director, Department of Geology, within three months of the date of execution thereof.

49. Failure to comply with the preceding rules will render the application or lease liable to be cancelled and the deposit forfeited.

V.—GENERAL.

50. The royalties payable to Government in respect of minerals worked under a prospecting license or mining lease are set forth in Schedule A hereto. The rates are liable to alteration from time to time, due notice of which will be published in the official gazette.

51. The Government will require the strict performance of the provisions and conditions contained in any prospecting license or mining lease providing for the proper prospecting or mining of the land comprised therein.

52. The Government reserve to themselves the power to enter upon the area of any prospecting license or mining lease and conduct prospecting and mining operations thereon in respect of minerals or other substances other than those specified in the schedule attached to the prospecting license or mining lease and also to carry out works of public utility, due compensation being paid for any interference with prospecting or mining rights or any loss or damage caused to the holder of such rights. As a rule powers hereby reserved will not ordinarily be exercised to the disadvantage of the licensee or lessee.

53. Topo sheets of Mysore marked with areas granted for prospecting and mining are kept at the office of the Director, Department of Geology, and may be inspected by the public on payment of a fee of one rupee per sheet.

54. Persons desirous of having their own topo sheets or other maps of Mysore marked with areas granted for prospecting and mining may apply to the Director, Department of Geology, for the same. A fee of four annas will be charged for each block marked.

55. A licensee desirous of securing a copy of his prospecting license may apply to the Director, Department of Geology, for the same, stating the purpose for which the

copy is required. The Director may, if satisfied with the reasons assigned, issue a duplicate copy of the license on payment of a fee of Rs. 10.

56. The rules for the conduct of prospecting and mining operations in forest lands are printed for information in the appendix hereto.

57. Prospecting licenses and mining leases, while conveying exclusive rights to specified minerals over definite blocks, specifically debar the licensee or lessee from entering upon or mining beneath the surface of any private or occupied lands within such blocks without previously acquiring the surface rights or obtaining the consent in writing of the owner or occupier. If the terms upon which the consent of the owner or occupier of such lands can be obtained are in the opinion of Government unreasonable and likely to hinder or unduly restrict the exercise of their rights to the mineral by Government or by any person acquiring such rights from Government, the lands in question may, at the absolute discretion of Government, be acquired in accordance with Section 38 of the Land Revenue Code.

SCHEDULE A.

ROYALTIES.

(Subject to alteration by Notification in the Mysore Gazette.)

(a) Royalty on gold and silver.

(1) No royalty shall be paid so long as the operations in connection with the mining block do not result in any net profits to the lessee.

(2) For each calendar year in which the operations result in a balance of net profit to the lessee, the rate of royalty shall be 5 per cent of the gross sale value of the gold and silver.

(3) For each calendar year for which the net profits exceed the sum of £25,000, the lessee shall pay an additional royalty of 5 per cent of all net profits in excess of £25,000.

Provided that in the case of the lessee being a duly registered company, the words "*divisible profits*" may at the discretion of the lessors be substituted for "*net profits*" in this clause.

(4) When more than one mining lease is held by one lessee the additional royalty of 5 per cent on divisible profits shall be calculated on the divisible profits from each lease or on the total divisible profits from all the leases whichever is more convenient.

NOTE.—"Net profits" shall be taken to mean the excess of the revenue which is wholly derived from the sale of the mineral or minerals specified over expenditure, after all costs and expenses chargeable to the actual working and management of the mine shall have been included. But neither depreciation nor amortization, nor Director's fees, nor any revenue or expenditure obtained or incurred on account of share or capital transactions, or by trading shall be brought into account, provided that the fees of such Director, or Directors as may actually direct technical operations and are specifically denoted as Managing Director or Directors may be included in the expenditure.

"Divisible profits" shall be declared dividends and bonuses or other payments made out of net profits to or on behalf of the share-holders and interest on debentures.

(b) Royalty on chrome, magnesite and manganese ores.

(1) The royalty shall be payable quarterly.

(2) On all ores despatched during any quarter, royalty shall be paid within ninety days of the close of the quarter and shall be calculated as follows:—

Five per cent of the sale value of the ore on the mining block convertible annually or for a fixed term, at the option of Government, into an approximately equivalent charge per ton, subject to the following minimum charges:—

SCHEDULE B.

Shape and maximum limits of blocks to be granted under Mining Leases.

All blocks shall be, as far as reasonably possible, rectangular in shape and the length of a block shall ordinarily not exceed twice its breadth.

The maximum dimensions of a block shall be ordinarily :—

For Gold Ores ...	1 mile long by ⅓ a mile wide and not more than ½ a mile along the strike of the vein or formation.
For Iron and Manganese Ore ...	½ a mile long by ½ a mile wide.
For all other ordinary minerals...	⅓ of a square mile.
For precious stones and detrital or alluvial deposits (including alluvial gold).	Limits to be specially determined in each case.

NOTE.—The foregoing limits are published for guidance of the public and to define the maximum dimensions of a mining block claimable by a licensee under the terms of his Prospecting License. Applicants are not debarred from proposing relaxation of these limits in virtue of special circumstances arising out of the shape or distribution of mineral deposits or on account of adjacent occupied or reserved areas but the acceptance of such proposals will remain at the absolute discretion of Government.

APPENDIX.

RULES FOR THE CONDUCT OF PROSPECTING AND MINING OPERATIONS IN FOREST LANDS.

Notification by the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

No. R. 10777—*Ft.* 81-08-6, *dated* 21*st June* 1909, *and No. R.* 9048—*Ft.* 43-14-14, *dated* 22*nd March* 1916.

EXPLORING LICENSES.

1. The holder of an exploring license shall obtain from the District Forest Officer permission to enter upon and explore for minerals in any forest lands within the area to which the license applies.

2. Such permission will ordinarily be freely granted, but will not entitle the licensee to cut or injure any forest growth or to dig or turn up the surface of the land to a greater depth than three feet and the licensee must, before leaving the locality, fill up any excavations which he may have made, to the satisfaction of the District Forest Officer.

3. Should the licensee desire to make trenches or sink pits to a depth greater than three feet, he must obtain the sanction of the District Forest Officer in each case and pay compensation at the rate provided hereunder for any forest growth which may be injured or destroyed and shall undertake to fill up all excavations to the satisfaction of the District Forest Officer.

PROSPECTING LICENSES AND MINING LEASES.

4. No prospecting license or mining lease shall ordinarily be granted in forest lands except with the sanction of the Conservator of Forests.

Prospecting and mining operations will generally not be permitted in plantations, coupes which have been worked over and in tracts containing specially valuable growth of sandal, teak or other species of trees.

5. Before commencing any prospecting or mining operation in any forest lands, the licensee or lessee or his duly authorized agent or representative shall give notice to the District Forest Officer of his intention to do so, and shall, at the same time, forward to the District Forest Officer a statement of the area or areas proposed to be operated upon and their dimensions and a sketch map on a suitable scale showing the said area or areas and their

relative positions and shall deposit with the District Forest Officer the amount of compensation due on the said area or areas calculated in accordance with Rule 9. Each area to be operated upon, except such as may be required for a railway, tramway, road or foot-path, shall be in the form of a rectangle, of which no side shall be less than 10 yards long, and shall be defined by cairns of stones. Each area shall be distinguished by a letter of the alphabet in the abovementioned statement and map.

A consolidated statement and a complete map shall be maintained up to date and kept on the prospecting or mining block by the person in charge of the operations.

6. In any prospecting or mining block, the total area which may be operated upon or cleared of forest shall not exceed 25 acres except with the permission in writing of the District Forest Officer and no railway, tramway, road or foot-path shall be made without such permission. Such permission will be granted from time to time in each case for an area not exceeding 25 acres on the application of the licensee or lessee, provided that the additional area is required for the *bona fide* extension of prospecting or mining operations.

The areas operated upon shall include all those the surfaces of which have been opened up by means of pits, trenches or other excavations or covered with earth, stones, debris, machinery, buildings, etc., or upon which the forest growth has been injured or destroyed, or over which any railway, tramway, road or foot-path has been made.

7. In the case of all buildings, machinery or other structures erected upon the block and in the case of every place where fire or lights are used at any time or round any working or dwelling place where the District Forest Officer considers it to be necessary for safety, the forest growth shall be cleared for a distance of 10 feet round the limits of such structure or place to such extent as the District Forest Officer may require.

8. As soon as possible after the receipt of the statement and map referred to in Rule 5, the District Forest Officer shall prepare a bill for the amount of compensation due at the rates specified hereunder and after crediting the amount deposited under Rule 5, shall adjust or require the licensee or lessee to adjust any balance as may be necessary. In default of payment the District Forest Officer may, at his discretion, stop all further operations and take steps to recover the amount due as a revenue demand.

In the event of any area not included in the map and statement required by Rule 5, being found to have been operated upon, the District Forest Officer may, at his discretion, stop all further operations and recover compensation for the same at double the rates provided hereunder.

9. The licensee or lessee shall—

(*a*) Pay a lump sum compensation for damage and disfigurement of the surface on all areas operated upon or cleared, at the following rates :—

(1) In State Forests, reserved lands or in District Forests which have been specially brought within the scope of these rules.	(i) Rs. 100 per acre for high and pole forests. (ii) Rs. 50 per acre for other forests, including scrub.

(2) For railways and tramways, and for roads on which traction engines are used, at the foregoing rates.

(3) For ordinary cart-tracks and foot-paths, at the rate of Rs. 25 per mile.

(*b*) Undertake not to cut sandalwood except with permission of the Forest Department and on payment of an extra charge to be fixed by the Conservator.

(*c*) Make over to the Forest Department all the trees felled in the area operated upon.

N.B.—The decision of the Conservator of Forests as to whether any particular forest is high, pole or scrub shall be final.

10. The licensee or lessee shall not fell, girdle or lop any tree outside the area or areas shown and described in the map and statement referred to in Rule 5.

11. Nothing in the foregoing rules shall be taken to exempt the licensee or lessee or his employees from liability in respect of any forest offence punishable under the Mysore Forest Regulation, 1900.

Legislative Measures and Rules thereunder.

NOTIFICATION.

No. 826—*L. C. dated 8th June* 1920.

Under Rule 40 of the Rules for the conduct of business of the Mysore Legislative Council, the following report of the Select Committee on the Bill to amend the Mysore Local Boards and Village Panchayets Regulation, 1918, is published for general information.

By Order,
P. MAHADEVAYYA,
Secretary, Mysore Legislative Council.

Report of the Select Committee on the Bill to amend the Mysore Local Boards and Village Panchayets Regulation, 1918.

We, the members of the Select Committee appointed to consider the above Bill have the honor to submit the following report :—

Clause 1.—The General Economic Conference and the Central Development Board are merely consultative bodies and have no independent statutory existence under the Local Boards and Village Panchayets Regulation. Hence there is no object in defining these terms in this Regulation and we have accordingly omitted this clause.

Clause 2.—The amendment of Section 4 of the Regulation proposed in this clause contemplates the exercise of concurrent jurisdiction over municipal areas by Local Boards as well as municipalities in regard to economic work. We consider that it is not desirable that the two bodies should exercise concurrent jurisdiction over one and the same area and hence

we recommend that Section 4 may remain as it is and that no amendment need be made therein.

Clause 3.—We propose certain verbal alterations in this clause and the clause as altered will be as follows :—

"8 (i) the development of the Economic condition of the district with special reference to Education, Agriculture and Industries and Commerce."

Clause 5.—As the provision made in this clause relates to a subject different from that contemplated in Sub-Section (1) of Section 10, we consider that it may form a separate Sub-Section as Sub-Section (2), the present Sub-Section (2) being renumbered as Sub-Section (3). The above arrangement involves certain alterations in the wording of the clause and as altered it will stand, as follows :—

"10 (2) Subject to like restrictions and conditions imposed in Sub-Section (1) every Taluk Board shall, within the area subject to its authority, exercise such powers and perform such duties as may be assigned to it, in matters relating to economic development with special reference to Education, Agriculture and Industries and Commerce."

As a result of the above alterations, the figure (9) in Sub-Section (1) of Section 27 should be substituted by (10) and the figure 9 in Sub-Section (2) of the same section deleted.

Clause 6.—This clause contemplates making provision for the formation of Sub-Committees and Special Sub-Committees. As Section 17 relates to the formation of joint committees, we suggest that in the headline over Section 17 the word "Joint" may be deleted, and that this clause may be treated as Section 17A. We have also slightly altered the wording of the clause. As altered it will read as follows :—

"17A—(1) Subject to such rules as may be framed by Government in this behalf, every Local Board shall for the purposes of Sections 8 (i) and 10 (2) of the Regulation, appoint three committees from among its members to deal, respectively, with Education, Agriculture and Industries and Commerce consisting of such number of members as may be appointed by the Board.

(2) It shall be lawful for the District Board to appoint as a member of any of the said committees, any person of either sex, who is not a member of the Local Board, but who may, in the opinion of the President, possess special qualifications for serving on the committees.

(3) It shall also be lawful for the District Board to appoint temporarily additional members of either sex, whenever necessary, for the consideration of any particular subject or subjects."

Clause 7.—We recommend that the proposed new sub-clause (*c*) may come after the proviso in Section 24, as, after a careful discussion we came to the conclusion that the levy of the cess should have the acceptance of a majority of the Taluk Boards in the manner indicated in the revised clause. Sub-clause (*c*) as revised will read as follows :—

"(*c*) an educational cess not exceeding six pies in the rupee on all items of revenue on which local cess is levied to be utilised solely for purposes of education.

Provided that the cess shall not be levied unless the levy thereof is accepted by not less than 75 per cent of the Taluk Boards in the district at meetings specially convened for the purpose, and confirmed by a resolution of the District Board supported by not less than three-fourths of the members present at a meeting specially convened in that behalf."

Clause 8.—For the reasons stated against clause 1 we consider that we have no power under the provisions of the Local Boards and Village Panchayets Regulation, to authorise Government to make rules defining the duties and responsibilities or the relations of the General Economic Conference and the Central Economic Development Board with the Local Boards or the Committees thereof. We therefore, recommend that the whole clause may be omitted and in its place the following be substituted :—

"Add the words 'and Committees' after the words 'Local Boards' in line 1 of Section 37 clause (*b*) and after the words 'Taluk Boards' in line 2 of clause (*c*) of the same section."

Clause 9.—We consider that it is desirable to provide for the making of bye-laws in respect of the issue of licenses for the plying ferry boats and we accordingly propose the addition of the following sub-clause after sub-clause (i), remaining sub-clauses being renumbered.

"(ii) The issue of licenses for plying ferry boats, the conditions on or subject to which such licenses may be granted and the fees payable in respect of such licenses".

Consequent on the above addition the words "and license fees specified in Section 38, clause (1), sub-clause (i)" have to be added after the words "Ferry collections" in Section 23, clause (1) sub-clause (iii).

We recommend that the Bill may be passed with the above changes, and as they have been fully indicated in the report we consider that the Bill need not be republished.

Mr. Shankaranarayana Rao having resigned his membership in the Legislative Council, Mr. C. S. Doraswamy Iyer took part in the discussions having been previously invited to be present.

(Subject to a minute of dissent.)

Mr. H. Krishna Rao was unable to be present at the meeting.

Minute of dissent.

I have signed the report, subject to certain reservations in respect of clauses 6 and 7 of the Bill, in the manner indicated below :—

(1) It appears to me that the restrictions and limitations placed upon the powers of the Local Boards to form Sub-Committees and Special-Committees, under the new Section 17 A in clause 6 of the Bill, are not in keeping with the liberal spirit of the Local Self-Government Scheme in Mysore (*vide* G. O. No. 3005-55—Ml. 132-16-1, dated 16th November 1916). If the economic progress intended to be attained by the devolution of powers and functions on the Local Boards under the Government Orders is to be real and substantial, I am strongly of opinion that the Taluk Board must, at once be recognised unhesitatingly as an autonomous unit and not merely as an agent of the District Board, for all purposes of action as well as for exercising the powers of taxation. In this view of the matter, it becomes necessary to further amend Section 17A, clause (2) and clause (3) so as to leave the powers of the Taluk Board unfettered by unnecessary interference by the District Boards or its President.

(2) In respect of clause 7, I desire to state that my view is that land is already over burdened by taxation. It is therefore necessary that "Land Revenue" should not be made liable to further taxation by the Local Boards. Again, for the reasons stated above, I am strongly of opinion that it is the Taluk Boards, and not the District Boards, that should be made competent to levy the Education Cess. The proposed section in clause 7 of the Bill, will, in this view, have its proper place under Section 26 of the Mysore Local Board and Village Panchayets Regulation, 1918, after the necessary changes being made in it.

Though I was not able to convince the official members of the Select Committee of the reasonableness of my arguments in support of the views I hold, I wish to express my appreciation of the extreme courtesy and considerations with which they discussed all these matters.

D. VENKATESAYYA,
Member, Mysore Legislative Council.

No. 827—L. C., dated 8th June 1920.

Under Rule 40 of the rules for the conduct of business of the Mysore Legislative Council the following report of the Select Committee on the Bill further to amend the Mysore Municipal Regulation, 1906, is published for general information.

By Order,
P. MAHADEVAYYA,
Secretary, Mysore Legislative Council.

Report of the Select Committee on the Bill further to amend the Mysore Municipal Regulation, 1906.

We the members of the Select Committee appointed to consider the above Bill, have the honor to submit the following Report :—

Clause 1.—This clause as it stands at present makes the function of economic work only optional on the part of municipalities. Likewise Section 30 provides for consultative committees only. As the object of the Government Order dated 12th July 1919, regarding the reconstitution of the Economic Conference is to make it obligatory for municipalities to undertake economic development work, we propose that instead of amending Section 30, a new section be added as Section 29A and that a new clause (*t*) be also inserted under Section 54. The new section and the new clause may be worded as follows :—

"29A. Subject to such rules as may be framed by the Government from time to time in this behalf, the Municipal Council shall appoint for the purpose of Section 54 (*t*) three committees to deal respectively with Education, Agriculture and Industries and Commerce."

"54 (t) promoting the development of economic condition with special reference to Education, Agriculture and Industries and Commerce."

Clauses 2, 3 and 4.—In view of the alterations indicated above, there is no need to consider Mr. H. Krishna Rao's amendment; Clauses 2, 3 and 4 have to be omitted, and Clause (*p*) of Section 54 and Clause (*c*) of Section 56 have to be deleted.

Clause 6.—We recommend that the word "and organisations" may be omitted, as organisations other than Local Boards and Village Panchayets have no statutory existence under the Regulation, and we consider that the relations between these bodies could more appropriately be defined by an executive Order of Government.

We recommend that the Bill may be passed with the alterations noted above, and as we have indicated the changes in detail, we consider that the Bill need not be republished.

Mr. Shankaranarayana Rao, having resigned his membership in the Legislative Council, Mr. C. S. Doraswamy Iyer took part in the discussions having been previously invited to be present.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, I-A, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time. Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. Those who pay Rs. 2-4-0 per annum will have Parts I, I-A, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted; but those who pay Rs. 4 will get the entire copy of the Gazette.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

OFFICIAL PAPERS.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Food Situation for the week ending 12th June 1920.

Brief abstract of the special reports regarding the Food Situation for the week ending the 12th June 1920.

Bangalore City.—During the week under report, 124 carts of ragi and 13 carts of paddy came into the bazaar as against 93 carts of ragi and 6 carts of paddy in the previous week.

The price of ragi ranged from Rs. 78 to Rs. 85 per cart during the week against Rs. 80 to Rs. 85 per cart in the previous week.

There is sufficient stock of rice and ragi in the bazaar for consumers.

The Municipal Depot and the three Test Depots are selling Rangoon rice to the poor. The importers are also selling rice to the public at their depots. The transactions in these depots are being watched by the Inspecting Staff.

Mysore City.—No change.

Bangalore District.—Except for 16 cents of rain at Magadi, there was no rainfall in the district during the week. Rain is badly wanted all over.

The standing crops are reported to be in good condition.

The price of ragi ranged from 6½ to 9 seers a rupee.

Local rice was sold at 3 to 4½ seers a rupee, while Burma rice was available at 4½ to 4¾ seers a rupee.

Burma rice is available in all the Government Depots.

The general situation remains unchanged and does not call for any remarks.

Mysore District.—There is no change in the situation. Markets are well supplied and standing crops are in good condition.

Prices still remain high.

Tumkur District.—There has been no change during the week in the price of food grains. Local rice is selling in the bazaar at 4½ to 4¼ seers a rupee. There is sufficient stock of Burma rice in the Government Depots.

Kolar District.—There were a few showers of rain in some parts of the district during the week. The raiyats are anxiously waiting for more rain to prepare the lands for dry crops. The *Vaisakhi* paddy is being briskly harvested.

Burma rice is being sold in all the Taluk Grain Depots, though in small quantities. All the Depots have sufficient stocks.

Local rice continues to be sold at 4 to 4½ seers and ragi at 7 to 7½ seers a rupee.

Hassan District.—*Santes* were generally well supplied with food grains.

Standing crops such as *Kar* paddy, sugar-cane are in good condition. The former crop is being reaped in parts of Arsikere Taluk. Gidda ragi crop is in a good condition.

Prices of food grains are still high.

There was good rainfall during the week under report and the sowing operations are nearing completion.

The prospects of the season are generally good for the present. More rain is wanted. Monsoon has set in, in Malnad.

Shimoga District.—There is no change in the food situation.

There was rain all over the district and sowing operations are in full swing.

Kadur District.—The staple food grains were available in all the markets in sufficient quantities, but their prices continued to be the same as in the previous week.

There were good showers of rain all over the district, and the agricultural operations are in progress.

Chitaldrug District.—Except in Davangere and Harihar where it gauged 55 and 72 cents respectively, there was no rainfall in the district during the week under report. The price of Challakere rice has fallen by one rupee a palla while those of other food grains remain the same.

The demand for Burma rice is going down.

General (by Food Controller).—The Districts of Hassan, Kadur and Shimoga have had good rain, while the others had only slight rainfall here and there. More rain is urgently required in these districts. In the Hassan and Bangalore Districts, standing crops, such as *Kar* paddy and gidda ragi, are reported to be in good condition; in the Kolar District the harvesting of *Vaisakhi* paddy is going on.

The markets are reported to be well supplied. The flow of ragi into the Bangalore City Market has been more than in the last week; the price has gone up to nearly Rs. 88 per cart load. The price of Challakere rice has gone down by a rupee per palla in the Chitaldrug District. Elsewhere prices are fairly stationary. Burma rice is being sold in small quantities in the Districts of Chitaldrug, Kolar, Bangalore and Tumkur. In the Bangalore and Mysore Cities, the demand for Burma rice continues to be steady, while in the Civil and Military Station of Bangalore it is increasing. The demand for Burma whole rice and broken rice is great on the Kolar Gold Field.

7. Mofassal Magistrates may make reasonable advances to witnesses summoned by the High Court or Presidency Magistrates and requiring such advances to enable them to reach Madras, but shall in every such case note the same on the certificate referred to in rule 6. The Commissioner of Police should also be advised of such advances, and he will refund the amount to the officer making the advance.

8. Whenever it is practicable for witnesses to travel by rail or steamer, they shall be allowed no more than the rates prescribed for those modes of conveyance.

9. Subsistence allowance may be paid for the days occupied in travelling to Madras as well as in the return journey. The subsistence allowance at Madras will cease as soon after the conclusion of the inquiry or trial as the means of quitting the town become available.

10. The expenses of witnesses will be paid on production of a certificate signed by the presiding Magistrate or in the case of the High Court by the Clerk of the Crown setting forth the inquiry or trial in which their attendance was required and the days on which they attended.

11. It shall be competent to the court before which a witness appears to disallow payment of any expenses on behalf of Government if for any cause such Court thinks fit to do so.

12. The Commissioner of Police will disallow the whole or part of the expenses of any witness for the defence whose evidence may not seem to him to have been material, unless he is satisfied that such witness has been brought down to Madras against his will and that no compensation for his expenses has been paid or deposited by the defendant. This power does not extend to the case of a witness who has been examined and certified by the court or Magistrate to have been material.

13. In applying the foregoing rules to public servants to whom the Civil Service Regulations are applicable the following additional rules shall be observed :—

(1) When a public servant appears in any case under rule 1, to give evidence in his official capacity that is, evidence of facts within his knowledge as an official, no payment shall

be made to him, but the court will give him a certificate setting forth that he appeared to give evidence of what had come to his knowledge, or of matters with which he had to deal, in his official capacity, the dates on which he appeared and the period for which he was detained, so as to enable him to draw travelling allowance and batta under Article 1133 of the Civil Service Regulations.

Exceptions.—(*a*) In cases in which a public servant has to give evidence at a court situate not more than five miles from his headquarters, the court is authorized, where it considers it necessary, to pay him the actual travelling expenses incurred.

(*b*) In cases in which the salary of the public servant summoned does not exceed Rs. 10 per mensem, the court itself is authorized to pay his expenses.

(2) When a public servant appears in his official capacity as a witness in a case which does not come under rule (1), *e.g.*, in a case in which section 244 (3) or 257, Code of Criminal Procedure, is applied the party at whose instance he is summoned shall prepay into court the travelling and halting allowances admissible to him under the Civil Service Regulations. The amount so prepaid shall be credited to Government but the court shall give the witness a certificate containing the particulars specified in rule (1) *supra* so as to enable him to draw the travelling and halting allowances admissible under Article 1133 of the Civil Service Regulations. When a public servant appears to give evidence in any case as a private person, travelling allowance and batta may be paid to him in the ordinary manner, but the court shall send an advice of all such payments made to him to the head of the office in which he is employed. In this advice the amount paid as batta and the period during which the attendance of the witness in court was necessary shall be stated.

(3) When an official of the Court of Wards appears in his official capacity as a witness in a case connected with an estate under the superintendence of the Court of Wards, the Judge or Magistrate before whom the trial takes place will furnish such official with a certificate showing the days on which he attended to give evidence and the amount of batta and travelling allowance paid to him on that account.

(4) When a public servant whose emoluments are governed by the Army Regulations, India, appears in any case under rule 1 to give evidence in his official capacity, he shall be paid the travelling allowance and batta admissible under these rules, and shall be furnished with a certificate showing in detail the amount paid. If the amount paid is less than the amount admissible to him under the military rules to which he is subject, the difference will be paid to him by the military authorities on production of the certificate.

14. Medical subordinates in Local Fund or Municipal employ (including Government servants lent to, and paid by, local bodies) when attending court to give evidence in their public capacity shall be paid the same rates of travelling allowance and batta as would be admissible to Government servants of similar grades under the Civil Service Regulations.

15. Subjects of the French Government who are in the official employ of that Government in the French Dependencies in India appearing as witnesses before criminal courts in Madras City may, if such claim be made, be paid their expenses at the rates to which they are entitled under the Regulations of their own Government in like case. Magistrates are required to refer any claim under this rule for scrutiny to the Collector of South Arcot, who is the special Political Agent for the French Dependencies in India.

16. Officials of the Government of Ceylon appearing as witnesses before courts in Madras City may, if such claim be made, be paid their expenses at the rates to which they are entitled under the Regulations of their own Government in like case. The claim should be submitted through the head of the department to which the official belongs.

17. Officials of the Mysore Durbar appearing as witnesses in their official capacity before courts in Madras City may, if such claim be made, be paid their expenses at the rates at which they would be entitled under the Regulations of their own Government. This arrangement may be extended by the Government to other Native States which have agreed to pay the expenses of British official witnesses from the Madras Presidency appearing in their courts on the same scale as that admissible to them under the Regulations of the Madras Government.

NOTE (1).—The above arrangement has been extended to the Pudukkottai, Travancore and Cochin States.

NOTE (2).—The above arrangement with the Mysore Durbar has been extended to the Sandur State [*vide* Home (Judicial) Department Notification No. 664, dated 18th September 1918, published at page 991 of Part I of the *Fort St. George Gazette*, dated 1st October 1918].

Officials of either the Madras Government or the Government of His Exalted Highness the Nizam appearing as witnesses before the criminal courts of the other will be paid travelling allowance at its own rates by the Government under which they are serving on production of certificates of attendance issued by the courts before which they appear as witnesses.

II

Rules for the payment of the expenses of complainants and witnesses attending criminal courts in the Madras Presidency outside the Presidency town.

Under section 544 of the Code of Criminal Procedure, the Governor in Council, with the previous sanction of the Governor-General in Council, is pleased to make the following revised rules for regulating the payment, on the part of Government, of the expenses of witnesses (including complainants) attending criminal courts in the Madras Presidency other than those of the City of Madras.

1. The criminal courts are authorized to pay, at the rates specified in rule 4, the expenses of complainants and witnesses in cases in which the prosecution is instituted or carried on by, or under the orders, or with the sanction of the Government, or of any Judge, Magistrate or other public officer, or when it shall appear to the Judge or Magistrate presiding over such court to be directly in furtherance of the interest of public justice; also in cases entered in column 5 of Schedule II appended to the Code of Criminal Procedure as not bailable; and in all cases in which the witnesses are compelled to attend by a Magistrate under the provisions of Chapter XLVI of the Code.

The courts may make reasonable advances to witnesses compelled to attend to give evidence when such prepayment is considered necessary.

2. (1) For the purpose of these rules witnesses are divided into two classes, namely, of officials and non-officials. Official witnesses, that is to say, public servants to whom the Civil Service Regulations are applicable summoned to give evidence as officials, are entitled to receive for their journeys to and from the court and for the days spent by them in attendance at the court to give evidence in cases coming under rule 1, travelling allowances at the rates prescribed by the Civil Service Regulations for the time being in force. The court shall not, however, make any payment to official witnesses in such cases, but shall grant them certificates setting forth that they appeared to give evidence of what had come to their knowledge, or of matters with which they had to deal, in their official capacity, the date on which they appeared and the period for which they are detained, so as to enable them to draw travelling allowance and batta under article 1133 of the Civil Service Regulations.

Exceptions.—(*a*) In cases in which a public servant has to give evidence at a court situate not more than five miles from his headquarters, the court is authorized, where it considers it necessary, to pay him the actual travelling expenses incurred.

(*b*) In cases in which the salary of the public servant summoned does not exceed Rs. 10 per mensem, the court itself is authorized to pay his expenses.

(2) When a public servant appears in his official capacity as a witness in other cases [*e.g.*, in cases in which section 244 (3) or 257, Code of Criminal Procedure, is applied], the party at whose instance he is summoned shall prepay into court the travelling and halting allowances admissible to him under the Civil Service Regulations. The amount so prepaid shall be credited to Government, but the court shall give the witness a certificate containing the particulars specified in rule (1) *supra* so as to enable him to draw the travelling and halting allowances admissible under article 1133 of the Civil Service Regulations. When a public servant appears to give evidence in any case as a private person, travelling allowance and batta may be paid to him in the ordinary manner, but the court shall send an advice of all such payments made to him to the head of the office in which he is employed. In this advice the amount paid as batta and the period during which the attendance of the witness in court was necessary shall be stated.

(3) When an official of the Court of Wards appears in his official capacity as a witness in a case connected with an estate under the superintendence of the Court of Wards, the Judge or Magistrate before whom the trial takes place will furnish such official with a certificate showing the days on which he attended to give evidence and the amount of batta and travelling allowance paid to him on that account.

(4) When a public servant whose emoluments are governed by the Army Regulations, India, appears in any case under rule 1 to give evidence in his official capacity, he shall be paid the travelling allowance and batta admissible under these rules, and shall be furnished with a certificate showing in detail the amount paid. If the amount paid is less than the amount admissible under the military rules to which he is subject, the difference will be paid to him by the military authorities on production of the certificate.

3. Medical subordinates in Local Fund or Municipal employ (including Government servants lent to and paid by local bodies) when attending court to give evidence in their public capacity shall be paid the same rates of travelling allowance and batta as would be admissible to Government servants of similar grades under the Civil Service Regulations.

4. Non-official witnesses are entitled to travelling allowance under two different scales as shown below according as they are (1) Europeans or Eurasians, or (2) Indians. Persons falling under either of these descriptions are, for the purposes of these rules, divided into

three classes; and the Judge or Magistrate before whom they are required to appear either as complainants or as witnesses shall be careful to fix the class with due regard to the station in life which they occupy—

	Europeans and Eurasians			Indians		
	First class	Second class	Third class	First class	Second class	Third class
Travelling allowance.						
By rail	First class fare	Second class fare.	Third class fare	First class fare	Second class fare.	Third class fare
* By a public motor service.	Do	Do	Do	Do	Do	Do
By road, otherwise than by public motor service.	As. 8 per mile	As. 4 per mile	As. 2 per mile	As. 6 per mile	As. 2 per mile	3 pies per mile
By sea or canal	Actual expenses of passages			Actual expenses of passage		
Batta not to exceed	Rs. 3 per diem	Re. 1 per diem	As. 8 per diem	Re. 1 per diem	As. 8 per diem	As. 4 per diem

* If there are only two classes, the first and second class witnesses will be paid the higher class fare and the third class the lower class fare.

5. In cases within rule 1, the Commissioner of Police may make reasonable advances to witnesses resident in the city of Madras who are summoned by a criminal court in the mufassal and who require the advances to enable them to reach the court. The court issuing the summons, on being advised by the Commissioner of Police of the advances made, will refund the amount to him.

6. The distance for which mileage and the number of days for which batta should be allowed for the journey to and from the station at which the court is held and for attendance at court shall be determined by the Judge or Magistrate ordering the payment in each case.

7. All bills for travelling allowance and batta to complainants and witnesses attending before the courts of magistrate of the second and the third classes shall be scrutinized by the magistrate of the division in which such courts are situated before the charges included in them are finally passed.

8. Whenever a magistrate dismisses a case as frivolous or vexatious under section 250 of the Code of Criminal Procedure, no travelling allowance or batta shall be granted to the complainant in such case.

9. The criminal courts are authorized to pay the necessary and actual expenses of carriage to a witness travelling by road, in the case of persons whose sickness, age, position or habits of life render it impossible for them to walk, provided the expense incurred under this rule shall in no case exceed As. 8 a mile.

10. To Indians and Europeans graded in the first class of non-officials, there may also be allowed the actual cost of carriage-hire to and from court on the days of attendance at court.

11. Subjects of the French Government who are in the official employ of that Government in the French Dependencies in India appearing as witnesses before criminal courts in the Madras Presidency may, if such claim be made, be paid their expenses at the rates to which they are entitled under the Regulations of their own Government in like case. Magistrates are required to refer any doubtful claim for scrutiny to the Collector of South Arcot who is the Special Political Agent for the French Dependencies in India.

12. Officials of the Government of Ceylon appearing as witnesses before criminal courts in the Madras Presidency may, if such claim be made, be paid their expenses at the rates to which they are entitled under the Regulations of their own Government in like case. The claim should be submitted through the head of the department to which the official belongs.

13. Officials of the Mysore Darbar appearing as witnesses in their official capacity before courts in the Madras Presidency may, if such claim be made, be paid their expenses at the rates at which they would be entitled under the Regulations of their own Government. This arrangement may be extended by the Government to other Native States which have agreed to pay the expenses of British official witnesses from the Madras Presidency appearing in their courts on the same scale as that admissible to them under the Regulations of the Madras Government.

NOTE (1).—The above arrangement has been extended to the Pudukkottai, Travancore and Cochin States.

NOTE (2).—The above arrangement with the Mysore Darbar has been extended to the Sandur State [*vide* Home (Judicial) Department notification No. 664, dated 18th September 1918, published at page 931 of Part I of the *Fort St. George Gazette*, dated 1st October 1918].

Officials of either the Madras Government or the Government of His Exalted Highness the Nizam appearing as witnesses before the criminal courts of the other will be paid travelling allowance at its own rates by the Government under which they are serving on production of certificates of attendance issued by the courts before which they appear as witnesses.

This clause shall apply also to the determination of the taxable income derived from the annuity and capital redemption business of life assurance companies, the profits of which can be ascertained from the results of an actuarial valuation.

If the tax on the average net profits during the period covered by the last preceding valuation is less than the average of the tax deducted at the source from the interest income derived from investments in the same period, a refund of the amount by which such deduction from interest exceeds the tax payable on the average net profits should be allowed.

(v) The taxable income of companies carrying on dividing society or assessment business shall be taken at fifteen per cent of the premium income in the previous year. Where a non-resident company carries on dividing society or assessment business in Mysore the assessment shall be fifteen per cent of the premium income received in Mysore.

(vi) This rule shall apply only to the determination of taxable income from different classes of insurance business. The actual assessment of an insurance company carrying on more than one class of business shall, in accordance with the Regulation be determined as to its rate and amount by its aggregate taxable income from all the classes of business which it carries on.

33-A. (*a*) In any case in which the profits accruing or arising or deemed to accrue or arise in Mysore to any person residing out of Mysore whether directly or indirectly, through or from any business connection in Mysore cannot be accurately ascertained, the amount of such profits for assessment purposes may be calculated on such percentage of the turnover of the business carried on in Mysore as the Collector, having regard to all the circumstances of the case, may consider to be reasonable. This rule shall apply also to the determination of the income for assessment purposes of persons assessable to income-tax under section 33 (2) on account of their connection with persons non-resident in Mysore.

(*b*) In cases in which the method of assessment on a percentage of turnover is inapplicable—as for example the case of a Mysore branch of a foreign insurance company—the profits of the Mysore branch may be assumed for income-tax purposes to bear the same proportion to the total profits of the company as its receipts bear to the total receipts.

33-B. If amongst any persons engaged in any business, profession or vocation in partnership, together, any change shall take place in any such partnership either by death or dissolution of partnership as to all or any of the partners or by admitting any other partner therein before the time of making the assessment or within the year for which the assessment ought to be made under the Regulation, or if any person shall have succeeded to any business, profession or vocation within such periods as aforesaid, the tax payable in respect of such partnership, or any of such partners or any person succeeding to such business, profession or vocation shall be computed on the profits derived from such business, profession or vocation during the previous year in accordance with the provisions of the Regulation, notwithstanding such change therein or succession to such business, profession or vocation. The assessment so made will in all cases be subject to adjustment under the provisions of section 19 of the Regulation.

34. (i) Applications for composition in respect of the income on which the tax will be assessed shall be made in writing to the Collector before the 1st September and before the tax for the year is assessed by the Collector. But a Collector may receive an application after 31st August if he is satisfied that the applicant had sufficient cause for not presenting it within that date.

(ii) The party compounding should execute an agreement within one month from the date on which the amount of composition is notified to him. If he fails to execute the agreement within the above period, the Collector may proceed to assess him, as if no application for composition had been received.

(iii) Agreements for composition shall be in Form N or as near thereto as may be and shall be for a period of not more than five years. Compositions should not, however, be made as a matter of course for this period which is the maximum allowable, but the Collector should fix a suitable period in each case on a consideration of the circumstances. The

agreement shall be made in two parts one of such parts executed by the compounding party remaining with the Collector, and the other part signed by the Collector remaining with the compounding party.

(iv) No agreement for composition shall be made with companies or shall be entered into in respect of any income or portion of any income which is liable to taxation under the head of salaries or interest on securities.

(v) In order to arrive at the amount of the applicant's income for the period in respect of which the application is made, the Collector should institute inquiries as to the probability of a future increase or decrease in the applicant's income. The compounded income shall not be less than what is estimated as the average income for the period.

(vi) If the party who has compounded dies or becomes bankrupt or insolvent or, in the case of a firm, goes into liquidation or voluntarily closes his business before the expiration of the period comprised in the agreement, the agreement shall cease to have force on the 30th day of June next after such death, bankruptcy, insolvency or other proceeding, save and except as to any portion of the tax on the income compounded which before the said day shall have become payable and shall then be unpaid.

(vii) Fraud on the part of the party compounding in stating the income or otherwise shall render the agreement null and void.

35. Every receipt for money paid or recovered under section 45 of the Regulation shall be in Form O.

36. The powers of the Government to declare under section 47 of the Regulation which of several places of business shall be deemed to be the principal place of business for the purposes of the Regulation are hereby delegated to the Commissioner of Income-tax in Mysore.

37. An assessee who carries on business in several places is assessable to income-tax by the Collector in the district in which the principal place of business of the assessee is situate.

Ordinarily the principal place of business shall be understood to mean the place at which the persons directing any company or firm to their business, or the registered or head office where the general books and accounts for all branches are kept and compiled.

38. When a Collector learns that an assessee having his principal place of business in his district has a place of business in another district he shall communicate with the Collector in that latter district with a view to obtaining a complete account of the annual profits or income of the company, firm or person and the Collector in the latter district may make the inquiry provided for by section 18 of the Regulation. The Collector in the district in which the principal place of business is situated shall not require the production of accounts or documents relating to the branch business of the assessee in other districts. The final assessment, however, shall be made by him and he shall have full power to deal with the reports made by other Collectors, and to alter and amend their estimates in making his final assessment. Full reasons should, however, always be recorded when the estimate of the Collector in another district is not accepted.

39. In calculating the amount of tax payable the amount due on fractions of a rupee shall be neglected; and in the amount of tax calculated, fractions of a pie shall be neglected.

APPENDIX I.

Memorandum of additional instructions for Auditors for the preparation of returns of income for income-tax purposes.

The return of income shall contain a true and complete statement of income from all rces liable to taxation whether already taxed at the source, as in the case of Government rities, or not, and shall show the aggregate income received during the previous year n each source.

If the assessee's accounts have been made up in the previous official year for a full year, return of income shall be for the year ending on the date to which the accounts were de up. If otherwise, it shall be for the year ending 30th June. The exact period for ch the accounts were made up must be stated.

2. The return of income should, when possible, exhibit the result of working for a plete period of twelve calendar months, and should be accompanied by a copy of the ssee's last profit and loss account as well as by information regarding the capital employed e business.

3. A certificate must be appended to the audited return of income that proper books of unts have been kept on a recognized system in English or one of the vernaculars of the e and properly closed and balanced from year to year and that the return made is in ac-ance both with the books and with the requirements of the Income-tax Regulation and . In explanation of this certificate there should be added a clear description of the re of the books kept by the assessee.

4. Where an assessee's business extends over several places, a list of the several places ich the business is carried on together with information regarding the relations of the sses with one another and the nature of the business carried on in each place should be . If it is claimed that different businesses or branches in which an assesse is interested sessable separately and not as part of the main concern, the grounds of the claim should

5. In every case of a firm with several branches the production of a general or head-quarter account must be insisted upon by the auditor and all adjustments between branches must be examined and a clear statement of such adjustments submitted to the Collector.

6. In cases in which trading stocks or stocks of consumable stores or working materials are carried over from year to year the nature of the accounts kept of stocks or stores, the manner of the verification of the same and the methods adopted in the valuation of the opening and closing balances must be stated. The prices of articles of merchandize shown in the assessee's books should be checked in as many cases as possible with the invoices or bills under which they were bought.

7. In the case of money-lenders it should be noted that what is taxable is the income accruing, arising, or received. Interest which accrues in the year is often not actually paid in it but is added to the capital and itself bears interest. It is also found that payments of capital and interest are often not distinguished in the accounts. In such cases the only fair way to assess the income of a particular year is to assess the income that accrues or falls due in it.

8. It is also a common practice for a trader preparing goods for sale and selling both his own and those of others to charge a commission on all sales and to show as his income from goods prepared by himself only the commission charged. In such cases the production of the accounts of the assessee's mill, tannery or other place where the goods were prepared must be insisted upon and except in cases where, for the reasons mentioned in paragraph 4 *supra*, the business at the place of sale can be regarded as distinct from that at the place of manufacture, the income of the assessee from the manufacture and sale of the goods prepared in his mill, tannery, etc., must be ascertained from the accounts kept at the place of manufacture and sale and exhibited in the profit and loss statement separately from the commission received on sale of goods received from other people. The sale proceeds of the goods prepared at the assessee's mill, tannery, etc., and of the goods received from others for sale on commission should also be specified.

9. Full particulars should be given of all deductions made from the gross income. No deduction should be made that is inadmissible under the income-tax rules or in respect of charges that were not incurred in earning the profits returned.

10. When a deduction is claimed on account of interest paid on borrowed capital, the auditor should satisfy himself that the borrowed capital was applied to the purposes of the trade or profession. Vouchers evidencing the payment of interest should be insisted on wherever possible. Charges on account of interest on a trader's own capital must be disallowed.

11. When losses not compensated for by insurance or otherwise are claimed as a set off against profits the accounts must show:—

(*a*) of what the loss consisted,
(*b*) when it was actually sustained and
(*c*) how it was determined to be a loss.

12. In the case of deductions claimed on account of bad debts the auditor must satisfy himself that the debts have been written off in the year and must obtain particulars as to:—

(*a*) of what the debts consisted,
(*b*) when they were created,
(*c*) when they became due,
(*d*) how they were actually determined to be worthless,
(*e*) whether they were included as income in the year of account or in any previous year, and
(*f*) whether they have not been written off to profit and loss before.

Care must be taken to see that a bad debt has been regularly brought forward in the ledger from year to year from the date on which the debt arose and that when once a particular debt has been *bona fide* and upon reasonable grounds written off to profit and loss in one year, no portion of such debt is carried forward so as to be set off against or taken in reduction of the profits of the next or any succeeding year.

13. An auditor may represent an assessee at an enquiry under the Regulation, but an auditor who in so doing took the position of an advocate would be considered guilty of misconduct.

UNIVERSITY OF MADRAS.

NOTIFICATION.

Election to the Madras Legislative Council by the Constituency of the University under the Reform Scheme.

In connection with the election for the seat in the Madras Legislative Council allotted to the University of Madras under the Reform Scheme, it has been decided by the Government of Madras that a person shall be entitled to be registered as an elector on the roll for the constituency of the University if he has a place of residence in India and is a member

of the Senate, or an Honorary Fellow or a graduate of this University of over seven years' standing, *i.e.*, a graduate of the University (including a Licentiate in Medicine or Licentiate in Teaching) who was admitted to his first degree at the annual convocation held in November 1912 or earlier.

Under the regulations for the preparation of the electoral rolls framed by the Government of Madras the electoral roll for the constituency of the University should contain the following particulars—the elector's name, father's name, address and polling station and should be divided into parts for each registration area comprised in the constituency, and each part should be divided into sections for each polling area within the registration area. The electors in each registration area should be numbered in one series and the names in each polling area should be arranged alphabetically and bear consecutive numbers. The polling areas shall be the same as those fixed for the territorial constituencies. The City of Madras and each district in the mufassal will be a separate registration area. All other areas will together form another registration area. The Registration Officers are the Commissioner of the Madras Municipality for the City of Madras, the Collector of the District for each District in the mufassal and the Registrar of the University for other areas.

With a view to enable the Registration Officers to prepare the preliminary electoral rolls for the constituency of the University all members of the Senate, Honorary Fellows and graduates of over seven years' standing who claim to be eligible to be registered as electors are requested to submit their applications in the following form not later than 1st July, 1920, to the Registration Officer of the area in which they reside:—

REVIEW FOR MAY 1920.

Dated 11th June 1920.

Imports.—As mentioned in the last month's review, the removal by the Government of India of all inter-provincial restrictions over the movements of rice, except with reference to the North-West Frontier Provinces and Baluchistan, with effect from 1st of April 1920, has thrown open the grain markets of the Madras Presidency as well as of other parts of India to the local merchants. Full advantage has not however been taken of the facilities thus afforded, chiefly on account of the high prices prevailing in the important trade centres. Merchants also complain that they cannot get sufficient facilities in the matter of railway transport. The quantity actually imported without control was thus very small, and in addition to this, 84 tons of Delta rice were obtained during the month under control, towards previous arrears, bringing up the total of Madras rice imported under control to 9,892 tons.

2. *Burma rice.*—An allotment of 1,000 tons of rice from Burma was sanctioned for May 1920, and the stock commenced to arrive at Madras Harbour about the middle of the month. The entire quantity was distributed between the Civil and Military Station of Bangalore and the Kolar Gold Fields, the requirements of other parts of the State being arranged to be met from the stocks in the Provincial Grain Depot, Bangalore. The total quantity of Burma rice imported into the State from the beginning comes to 45,081 tons costing Rs. 69,71,342.

3. *The imports by road.*—According to returns received from the frontier Ookads were as follows:—

	Tons
Rice (unhusked)	232·45
Rice (husked)	62·45
Ragi	37·00
Jola	5·9
Horse gram	57·65

4. *Arrangements with Madras and Coorg.*—At the request of the Director of Civil Supplies, Madras, permission was given for the export of 590 tons of ragi, rice, jola and horse gram to the Nilgiris and Malabar-Wynaad. The export of 20 tons of ragi and 10 tons of horse gram per week to Coorg was also continued.

5. The actual *exports by road* were as follows—

	Tons
Rice (unhusked)	162·00
Rice (husked)	130·95
Ragi	194·35
Jola	16·45
Horse gram	276·65

The bulk of the exports was to the Nilgiris, Malabar-Wynaad, Coorg and Hosur Taluk.

6. *Stocks.*—The stocks in the Provincial Grain Depot, Bangalore, on the 31st May 1920 were as follows:—

	Pallas
Burma whole rice	18,937
Burma broken rice	451

The stocks in the Municipal Depots in the cities of Mysore and Bangalore on the same date were as follows:—

	Bangalore. Pallas	*Mysore.* Pallas
Burma rice	235·84	706·60
Broken rice	0·91	541·43
Delta rice	15·06	...

The stocks in the District and Taluk Depots on the same date were as follows:—

	Pallas
Rice (Burma) ...	11,347
Broken rice ...	110

The total stocks of rice and broken rice available were thus:—

31241·50 pallas and 1103·34 pallas respectively.

7. *Issues.*—The small quantity of Delta rice that was available in the Provincial Grain Depot, was fully sold out to *bona fide* consumers during the month. The issue of small quantities of Burma rice to individuals for domestic use was continued. The issues from the Provincial Grain Depot during the month were as follows:—

	To Depots		Direct to the public	To Co-operative Societies
	Bangalore City Municipal Depot	Others		
	Pallas	Pallas	Pallas	Pallas
Burma rice ...	3,803	443	267	691
Broken rice ...	...	107	13	82
Delta rice ...	...	...	113	113

The quantities of rice and broken rice issued to the public from the District and Taluk Depots as per returns received in this office were 2,477 and 667 pallas respectively.

Bangalore and Mysore Cities.—The quantities of rice supplied to the public through the Municipal Depots in the cities of Bangalore and Mysore out of Government stocks were as follows:—

	Bangalore.	*Mysore.*
	Pallas	Pallas
Burma whole rice ...	3470·74	191·08
Broken rice ...	...	395·07
Delta rice ...	24·16	119·25

Supplies to the Civil and Military Station.—During the month 303·5 tons of whole rice and 23·25 tons of broken rice were supplied from the Provincial Grain Depot, Bangalore, to merchants recommended by the Collector, Civil and Military Station.

8. *Prices.*—Markets were fairly well supplied during the month. In the first fortnight of the month the prices of foodstuffs remained much the same as in the previous month, but in the second fortnight they showed a tendency to rise. The price of horse gram is showing an upward tendency. Ragi was sold at Rs. 72 to 78 per cart-load in Tumkur and Rs. 80 to 85 in the Bangalore City. It was retailed at 10 to 11 seers per rupee in the markets of Shimoga, Chitaldrug, Davangere, Gundlupet, Honnali and Kadur. Rice sold at 5 to 7 seers per rupee in parts of Shimoga, Kadur and Hassan Districts.

9. Rainfall has been somewhat meagre in some parts of the State, particularly during he first three weeks of the month.
